City Commission-Approved Crossing Location

(Aug. 5, 2019)

This webinar is being recorded.

This represents the best RR crossing location alternative considering the totality of the community's goals and objectives, especially safety.

Partnership with Community and Stakeholder Agencies

Project Goals & Objectives (from **Community** & *Agency Stakeholders*)

- **Prioritize safety for children, pedestrians, bicyclists and cars**
 - *Maintain firetruck/school bus accessibility*
 - *Maintain connectivity between Howard and College*
- **Reduce signal delays**
 - *Provide maintenance of traffic during construction*
- **Provide plenty of green space**
- **Increase visibility for all users**
 - *Keep number of RR crossings at 1*
- **Simplify intersection geometry**
- **Prioritize traffic calming (especially along Howard)**
- **Improve access at Olympic Pl and Adair St**
- **Maintain flow during peak volumes/train crossings**

This webinar  is being recorded.
