December 15, 2016

To the Members of the City Commission and Residents of the City of Decatur, Georgia:

State law requires that all general purpose local governments publish within six months of the close of each fiscal year a complete set of financial statements presented in conformity with accounting principles generally accepted in the United States of America (GAAP) and audited in accordance with these standards by a firm of licensed certified public accountants. Pursuant to that requirement, we hereby issue the comprehensive annual financial report of the City of Decatur, Georgia (the City) for the fiscal year ended June 30, 2016.

This report consists of management's representations concerning the finances of the City. Consequently, management assumes full responsibility for the completeness and reliability of all of the information presented in this report. To provide a reasonable basis for making these representations, City management staff has established a comprehensive internal control framework that is designed both to protect the government's assets from loss, theft, or misuse and to compile sufficient reliable information for the preparation of the City's financial statements in conformity with GAAP. Because the cost of internal controls should not outweigh their benefits, the City's comprehensive framework of internal controls has been designed to provide reasonable rather than absolute assurance that the financial statements will be free from material misstatement. As management, we assert that, to the best of our knowledge and belief, this financial report is complete and reliable in all material respects.

The City's financial statements have been audited by Mauldin & Jenkins, LLC, a firm of licensed certified public accountants. The goal of the independent audit is to provide reasonable assurance that the financial statements for the fiscal year ended June 30, 2016 are free of material misstatement. The independent audit involved examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements; assessing the accounting principles used and significant estimates made by management; and, evaluating the overall financial statement presentation. The independent auditor concluded, based upon the audit, that there was a reasonable basis for rendering an unmodified opinion that the City of Decatur's financial statements for the fiscal year ended June 30, 2016, are fairly presented in conformity with GAAP. The independent auditor's report is presented as the first component of the financial section of this report.

In addition, the City maintains budgetary controls. The objective of these budgetary controls is to ensure compliance with provisions embodied in the annual appropriated budget approved by the City Commission. Activities of the general fund, special revenue funds and debt service funds are included in the annual appropriated budget. The level of budgetary control (that is, the level at which expenditures cannot exceed the appropriated amount) is established by function within an individual fund (e.g., at the department level in the general fund).

GAAP requires that management provide a narrative introduction, overview, and analysis to accompany the basic financial statements in the form of Management's Discussion and Analysis (MD&A). This letter of transmittal is designed to complement the MD&A and should be read in conjunction with it. The MD&A can be found immediately following the report of the independent auditors.

PROFILE OF THE GOVERNMENT

The City of Decatur, first chartered as a municipality by the State of Georgia in 1823, provides a full range of municipal services. These services include public safety (police and fire protection, inspections, housing codes enforcement, etc.), public works (streets and sidewalk construction and maintenance, storm drainage construction and maintenance, facilities and grounds maintenance, refuse collection, street sweeping, etc.), parks and recreation, the operation of a municipal cemetery and community and economic development. In addition, the City of Decatur owns a 280-space parking facility and a 25,000 square foot conference center.

The City currently occupies a land area of approximately 4.4 square miles and serves an estimated population of 21,957. The City is empowered to levy a property tax on both real and personal properties located within its boundaries.

The City of Decatur operates under the commission-manager form of government. There are five City Commissioners, elected in nonpartisan elections, for overlapping four-year terms. Elections are held on the first Tuesday after the first Monday in November in odd-numbered years. In one election, three City Commissioners are elected – one at-large, one from District 1 (north) and one from District 2 (south). At the next election, two City Commissioners are elected - one from District 1 (north) and one from District 2 (south). At its organizational meeting in January of each year, the City Commission elects one of its members to be the Mayor/Chair of the City Commission. At that same meeting the City Commission also elects a Mayor pro tem/Vice-Chair. It is the responsibility of the Mayor to preside at all meetings of the City Commission. The Mayor has no veto power but retains the right to vote on all matters brought before the City Commission.

The City Commission is the legislative and policy-making arm of the City government. It is responsible, among other things, for passing ordinances, adopting the budget, appointing committees, task forces and commissions, hiring the City Manager and appointing the City Attorney and municipal court judges. The City Commission appoints a professional administrator known as the City Manager who serves at its pleasure. The City Charter designates the City Manager as the Chief Executive Officer and the Chief Administrative Officer of the City. The City Manager is responsible for carrying out the policies and ordinances of the City Commission, for overseeing the day-to-day operations of the government and the appointment of all employees except that the appointment of department heads is subject to confirmation by the City Commission. All disciplinary action is the responsibility of the City Manager in accordance with the Personnel Rules and Regulations adopted by the City Commission. The current City Manager has served since May, 1993.

The Georgia General Assembly first adopted the City Charter, under which the City operates, in 1909. In 1920, the General Assembly amended the Charter to provide for the Commission-Manager form of government. In 1977, acting under its home rule authority, the City recodified and revised its Charter to delete obsolete sections, to clarify meanings and to generally bring the Charter up-to-date. The Charter was updated again in 2001.

The annual budget serves as the foundation for the City's financial planning and control. All agencies are required to submit departmental budget requests to the City Manager or her designee by the first week of March. These requests are the starting point for developing the proposed budget. The City also provides multiple opportunities for public involvement in the budgeting process ranging from informal meetings to an online forum.

The proposed budget is presented to the City Commission on the third Monday in May. The operating budget includes the proposed expenditures and the means for financing them. The City publishes the proposed budget in the official legal organ and other community newspapers, makes copies available to the residents of the City and posts the proposed budget on the City's website. Public hearings on the proposed budget are held during the month of June. The budget is then legally enacted through the passage of a resolution by the City

Commission, normally on the third Monday in June but no later than June 30th, the close of the fiscal year. Budgetary control is exercised at the departmental level. The City Manager is authorized to transfer budget amounts within a department; however, any revisions that alter the total expenditures of a department require a budget amendment by the City Commission. Budget-to-actual comparisons are provided in this report for the general fund. This comparison is presented on page 27 as part of the basic financial statements.

FACTORS AFFECTING FINANCIAL CONDITION

The information presented in the financial statements is perhaps best understood when it is considered from the broader perspective of the specific environment within which the City operates.

The City of Decatur is the seat of DeKalb County, a large, urban county in the Atlanta metropolitan area. With its central location within the county and as the location of county offices and the court system, Decatur's economy is primarily a service economy. Legal, banking, medical, insurance, accounting, governmental and educational services are the mainstay of this economy. The essential nature of these services provides a solid basis for the City's economic well-being.

Real Estate Digest

The City's overall 2016 real estate property digest shows a growth rate of approximately 6.34% compared to the 2015 digest. Approximately 87% of this increase is due to growth from new construction value with 13% of the increase attributable to revaluation of existing properties. The increase was consistent with local real estate sales reports and permitting activity. In response to growth in the digest, the City Commission was able to reduce the City's overall millage rate from 13.57 mills to 13.17 mills.

Actual real estate market sales data for 2016 indicates that property values continue to increase. The average sales price of a single-family home increased from \$571,000 in November, 2015 to \$622,000 in November, 2016, a 9% increase. The number of days a home was on the market increased slightly going from 35 days in 2015 to 38 days in 2016. The number of dwellings sold remained stable, decreasing slightly from 307 in 2015 to 295 in 2016, indicating on-going demand for single-family residences and reflecting the desirability of the community.

Residential Activity

The residential housing market continues to be vigorous. Several single-family developments are under construction and in-fill single-family dwellings remain highly desirable. We continue to issue permits for renovations to existing single-family housing units and for some commercial properties. In 2015 the City issued permits for 74 new single-family dwellings while issuing 42 demolition permits for existing dwellings. It is anticipated that by the end of calendar

year 2016, the City will issue permits for at least 77 new single-family dwellings, 56 new attached townhouses and demolition permits for 49 existing dwellings. Overall, permit and inspection fees decreased from \$1,232,850 in fiscal year 2015 to \$741,730 in fiscal year 2016, a 40% decrease. While this is a large decrease on an annual basis, the fees collected this year are similar to past years that did not include permitting for large mixed-use and multi-family projects. For example, compared to 2013 fees of \$644,470, 2016 permit and inspection fees showed a 15% increase. It is expected that two large mixed-use and multi-family developments will be permitted in fiscal year 2017.

Phase I of a 24-unit townhouse development at the corner of East Howard Avenue and Hillyer Place has been completed and dwellings are being occupied. Phase II is under construction and should be completed in 2017. A 30-unit townhouse community is being developed off of DeKalb Industrial Boulevard on property formerly occupied by DeVry Institute. Phase I has been completed and dwellings are being occupied. Phase II is currently under construction. A seven-unit detached residential development behind 1004 Clairemont Avenue is under construction and should be completed in 2017. A 32-unit attached townhouse development is under construction on the corner of Church Street and Forkner Drive with initial occupancy expected in 2017 and completion in late 2018.

In December, 2015 the City Commission approved an intergovernmental contract between the City and the Decatur Downtown Development Authority (DDDA) to facilitate development of a cottage court pilot project adjacent to the downtown commercial district. A cottage court is a development of smaller single-family homes that share common green space in order to provide a more affordable housing option for young professionals, empty nesters and service-sector employees in a targeted income range. The cottage court development is one of the new affordable housing options that is allowed by the Unified Development Ordinance and specifically addresses Principle D, Goal 15 “Expand the Variety of High Quality Housing Options to Meet the Needs of a Diverse Community” of the 2010 Strategic Plan.

In order to encourage private sector developers to consider cottage court development options, the DDDA is facilitating the development of a pilot project to prove that a market exists for smaller house options in the City of Decatur. A parcel of land within walking distance of downtown Decatur was identified and purchased. The Authority worked with a designer to create a site plan and architectural design options in cooperation with the Historic Preservation Commission and the neighborhood. The plan has six units ranging from 470 square feet to 1,100 square feet. Significant interest in purchasing the residences has already been shown. The next step is to solicit proposals to construct this prototype project which should begin in 2017.

Commercial Activity

In addition to government-related employers, mainly DeKalb County, the City’s employment base continues to be centered on professional occupations. The vacancy rate for available office space in the City of Decatur is approximately 11%, slightly lower than the 12% vacancy rate for metropolitan Atlanta office market areas. Interest in restaurant activity continues to be strong in downtown Decatur while activity in other commercial districts remains stable. Retail interest was slow over the past few years but is beginning to show signs of recovery.

The Oakhurst Business District is stable and steady given the size and scope of the area. Turnover has been limited and some additional businesses have opened. The City’s Fire Station Number 2, a 4,800 square foot LEED-certified building, is located in the business district and provides an institutional presence in the community. The Oakhurst Business District continues to provide a strong local commercial center for the surrounding neighborhood. However, due to real estate investment losses during the recession, Progressive Redevelopment, Inc., (PRI) owner of the

historic Scottish Rite Hospital property within the Oakhurst Business District, was no longer in a position to meet its financial obligations for debt repayment on the property. In order to protect this significant historic and community property, the Decatur Downtown Development Authority negotiated with PRI to purchase the property and the lender agreed to accept an offer below the loan value. Tenants have remained stable and interior renovations for a new restaurant are being completed with an anticipated opening by 2017.

Activity along the East College Avenue corridor remains constant, including East Decatur Station, a 70,000 square foot mixed-use property that currently contains several restaurants, a small church, hair salon and a number of professional offices. This area is becoming a center of local artisanal manufacturing with the opening of two craft breweries, a winery and a small batch whiskey distillery.

Mixed-Use Activity

Development of mixed-use projects has provided a robust vitality to the City's central business district since the early 2000's. Occupancy of mid-rise residential developments continues to be strong. The American Planning Association (APA) recognized Downtown Decatur as a "Top 10 Great Neighborhood" in October, 2013 citing its emphasis on sustainability, transit and a well-designed pedestrian environment as well as for community engagement efforts and a long-term commitment to downtown revitalization.

The City's 2010 strategic plan calls for a mixture of housing types; and the availability of rental apartments has consistently been identified as an underserved market. With the rebounding economy and the availability of financing, three developments containing apartment dwellings have been completed this year and two additional ones will break ground in 2017 that will address this need.

The Place on Ponce, located at 319 West Ponce de Leon Avenue includes 233 apartment dwellings, 10,000 square feet of commercial space and a new multi-level parking deck that also serves an existing office building on the site. The occupancy rate for the apartment units is at 90%, exceeding management expectations as interest and demand remain strong. Build-out of the commercial spaces, which include a restaurant, bakery and fitness center, is complete and all retail spaces are occupied.

Construction of the Alexan at 1133 Commerce Drive includes 173 rental apartment units and was completed this summer. This project also included the construction of a new parking deck that provides parking for the residential building and an adjacent existing office building providing another example of Decatur's commitment to shared-parking. Leasing continues to meet management expectations.

The ARLO, 245 East Trinity Place, is a mixed-use apartment development that includes 210 rental apartment units and 13,000 square feet of retail space. The project received a certificate of occupancy in the fall of 2016 and is currently leasing. A lease for the 3,000 square foot restaurant space is close to being signed and the remainder of the ground-floor retail space is occupied.

The City's Urban Redevelopment Agency purchased the Callaway Building site from DeKalb County in 2013. The County vacated the property in April, 2016 and the property sold to a private developer in August, 2016 for redevelopment as a mid-rise, mixed-use project. The development includes 329 rental apartments, 18,000 square

feet of retail space and 34,000 square feet of office space built around a 721-space parking deck. Site work is underway and it is anticipated that that the project will be completed in late 2018.

In the East Decatur commercial district, the Decatur Downtown Development Authority partnered with the Metropolitan Atlanta Rapid Transit Authority (MARTA) to issue a “Request for Proposals” for redevelopment of an underutilized 7.6 acre surface parking lot. A master plan for the area was created with funding from the Atlanta Regional Commission’s Livable Centers Initiative program. Columbia Ventures was selected as the development partner for this project. The project will include 370 market rate rental apartments and 22,000 square feet of retail and commercial space. Columbia Ventures was successful in obtaining tax credits for a planned 95-unit affordable, senior, independent-living component of the project. Ground breaking occurred in November, 2016 with completion expected in 2018. The project also includes a parking deck with spaces for MARTA patrons, project residents and retail and restaurant customers. The project also incorporates a bicycle and pedestrian connection in partnership with the PATH Foundation that travels through the project to connect with the Stone Mountain trail to the north of the project.

Institutional Activity

Agnes Scott College, a four-year liberal arts college for women, remains financially healthy with an enrollment of approximately 1,000 students. Columbia Theological Seminary, a Presbyterian graduate institution, remains financially strong with an enrollment of approximately 350 students.

The City Schools of Decatur has completed the majority of a \$30 million construction program; however, increasing student enrollment continues to put pressure on the capacity of existing facilities. To address increasing enrollments, the City Schools has developed a capital master plan. Four phases of capital construction have been identified using a combination of capital funding methods to finance the work. City Schools has issued \$18 million in certificates of participation (COPs) and construction of Phase I is almost complete. General obligation bonded debt of \$75 million was approved in a referendum that was part of the November 3, 2015 municipal elections. The bonds were sold in late January, 2016 and construction of Phases II and III should begin in early 2017.

The Decatur Housing Authority (DHA) has completed its portion of the redevelopment of the Allen Wilson Terrace public housing complex. The total project includes demolition and reconstruction of 191 units of public housing as well as development of 145 new market rate condominium dwellings in four phases. Phase 1, including 40 units of townhouses and apartments; Phase 2, a four-story 80-unit apartment building for senior residents; and Phase 3, which includes 71 units of townhouses and apartments, have been completed and occupied. Phase 4 will consist of selling a portion of the existing property facing West Trinity Place to a private developer for construction of market-rate dwellings. A schedule for Phase 4 has not been developed.

DHA has begun the process of redevelopment of the Gateway Manor apartment complex located off West Trinity Place. This project includes demolition and reconstruction of 116 units of subsidized housing and it has been renamed Trinity Walk. DHA was successful in securing tax credits for the project in 2015 and for 2016. Construction of 69 apartment units has been completed and occupancy has occurred. Construction of the remaining 52 apartment units is underway with completion expected in mid-2017.

MAJOR ACTIVITIES

In March, 2011, the City Commission adopted a second ten-year strategic plan for the City of Decatur. The plan was the result of a year-long planning process that incorporated input from over 1,500 individuals. The plan supports the community-based vision that the City of Decatur will assure a high quality of life for its residents, businesses and visitors, both today and in the future. The plan consists of 89 tasks to be accomplished by 2020 and provides the blueprint for how the City will prioritize its work program and allocation of assets over the ten year period.

In November, 2014, the City Commission approved a new Unified Development Ordinance (UDO) that consolidated all development, zoning and environmental regulations into one document. The UDO updated outdated and conflicting provisions and provided graphic and design illustrations to make the regulations more user friendly.

In February, 2014, Google announced that Atlanta was among nine US metropolitan areas that had been selected for study in the next installation phase of Google Fiber, a giga-byte service that provides Internet connectivity that is up to 100x faster than a basic broadband connection. Decatur was one of the eight cities in the metropolitan Atlanta area selected by Google for possible service. In January, 2015, Google announced plans to bring service to four metropolitan areas, including Atlanta (and Decatur). Google has begun construction with completion of a connectivity “hut” and is starting construction of its street level distribution fiber-network. In April, 2015, AT&T announced that it was also bringing giga-byte service to cities within the metropolitan Atlanta area, including Decatur, and has begun installation of fiber in public rights-of-way.

In September, 2006, voters approved issuance of \$33,245,000 in general obligation debt to finance major capital improvement projects for the City and for the City Schools of Decatur. In December, 2006, Moody’s Investors Service issued a rating of Aa3 and Standard & Poor’s upgraded the City’s rating to AA from A+ for the bonds. The bonds were issued in January, 2007. In December, 2010, the Urban Redevelopment Agency issued \$12.76 million in revenue bonds and at that time Moody’s Investors Service upgraded the City’s rating from Aa3 to Aa2 and Standard & Poor’s upgraded the City’s rating from AA to AA+.

In March, 2015, the City restructured the general obligation debt through an advanced refunding in order to reduce the interest rate. The interest rate on the new bonds averages 3.54% compared to 4.41% interest rate on the initial bonds. At the time of the refunding, the City’s bond ratings were reconfirmed.

The City’s portion of the 2007 bond issue proceeds was approximately \$16,653,000. Remaining funds have been allocated to provide funding for the Railroad Crossing Improvements at Candler and McDonough Streets. This should exhaust all funding from the bond issue.

The City has secured grant funding for pedestrian safety improvements to the CSX railroad crossings in the Candler/McDonough/Howard corridor, for the North McDonough Streetscape Improvements project, as well as for Clairemont/Commerce/Church Street Pedestrian Safety and Bicycle Trail Improvements. Matching funds will be provided from the City’s capital improvement fund and HOST proceeds. Construction has begun on the Railroad Crossing and North McDonough Improvements with completion expected in 2017. The Clairemont/Commerce/Church Street project should start in late 2017.

In December, 2010, the Urban Redevelopment Agency of the City of Decatur issued \$12,793,800 in Recovery Zone Economic Development Bonds to cover the cost of construction of improvements to Fire Station No. 1, the Decatur Recreation Center, and the Decatur Public Works facility. All of the projects are completed. The debt will be repaid using proceeds of the Homestead Option Sales Tax (HOST).

In May, 2013, the Urban Redevelopment Agency of the City of Decatur issued \$29,290,000 in revenue bonds to cover the cost of construction for redevelopment of the Beacon Municipal Center. Construction has been completed. Funding for the \$38,300,000 project came from a combination of bond proceeds, a transfer from the general fund balance and HOST proceeds. The debt will be repaid using proceeds of the Homestead Option Sales Tax (HOST).

Part of the redevelopment of the Beacon Municipal Center included construction of a one million cubic foot regional stormwater management facility. The facility was designed to manage the stormwater from the downtown Decatur drainage basin and provides an option for private developers to purchase capacity in the retention facility in lieu of building individual facilities when properties are redeveloped. Currently two redevelopment projects have purchased stormwater capacity in the facility.

In conjunction with private and institutional construction projects in the central business district, the City has financed substantial capital improvements through the stormwater utility over the past several years. The final improvement to the main downtown drainage system began in mid-2016 and should be completed in 2017. This should complete the upgrade to the downtown drainage system. The City has completed a comprehensive storm drainage master plan to guide major capital improvements to the City's drainage system. An update to the stormwater master plan is included in the current and next fiscal year budget.

The hotel/motel tax is used to fund maintenance and improvements to the conference center and parking deck; to fund the Decatur Tourism Bureau, a 501 (C)(6) organization whose purpose is to encourage visitors and tourism in the City of Decatur; and, to provide resources to the City's General Fund. For accounting purposes, the Decatur Tourism Bureau is treated as a component unit, similar to the Decatur Downtown Development Authority.

The City owns a 25,000 square foot conference center and a 280-vehicle, three-level parking deck which were built in 1987 adjacent to a privately-owned 179-room hotel also built in 1987. In 2011, the hotel property was sold to Noble Investment Group. At the same time as the hotel sale, the City entered into a long-term lease with the Decatur Downtown Development Authority (DDA) for operation and management of the conference center and parking deck. The DDA entered into a sub-lease with the Noble Investment Group for management and operation of the conference center, including significant capital renovations and upgrades. In October, 2015, the hotel property was sold to Summit Hotel TRS 126, LLC who retained existing management. Occupancy rates at the hotel have averaged approximately 84%, compared to the US industry average of 66%. Future hotel/motel tax collections for the upkeep and maintenance of the conference center will be placed in a reserve account to be used by the management firm for maintenance of the facility. This will be the only public financial obligation for operation, maintenance and capital improvements for the conference center.

Construction of an additional hotel in downtown Decatur is in the plan review stage. It is anticipated that construction will begin in 2017.

The City's volume-based sanitation collection system continues to be highly successful. The City currently has reduced landfill deposits by approximately 41%, well in excess of the State of Georgia's goal of a 25% reduction. The City sponsored two electronics recycling events during the past year which resulted in almost 45 tons of electronic equipment being recycled and not sent to the landfill. Since starting the electronics recycling program in 2005, the City has collected over 660 tons of electronic equipment to be recycled. In addition, the City has added a paper shredding event which resulted in over 9 tons of recycled paper being collected in 2016.

In 2015, the City's ISO Fire Rating was renewed at the Class 2 level, a rating that is obtained by just 4.4% of all the Fire Departments in Georgia. The Police Department is certified through the Georgia Association of Chiefs of Police. The City has implemented a Smart911 system to assist residents and businesses with voluntarily providing additional information to emergency services staff. The system also includes a reverse emergency notification system that allows the City to send recorded telephone messages to residents and businesses regarding civil emergencies. A grant from the Federal Emergency Management Agency provided for the purchase and installation of four tornado outdoor warning sirens.

Finance and budgeting staff have been awarded a Certificate of Achievement for Excellence in Financial Reporting from the Government Finance Officers Association for every Comprehensive Annual Financial Report since 2005.

LONG-TERM FINANCIAL PLANNING

In 1998, the City of Decatur entered into an intergovernmental agreement with DeKalb County for the equalization of tax proceeds from the adoption of the Homestead Option Sales Tax (HOST). In 1999, the City received its first distribution; however, the City disputed the County's method of determining the distribution and the matter was litigated until July, 2011, when the Georgia Supreme Court confirmed a lower court's ruling invalidating the intergovernmental agreement.

The City now receives an ongoing stream of payments from the HOST directly from the Georgia Department of Revenue as described in O.C.G.A. 48-8-104(d)(3). Payments began during the 2011-2012 fiscal year. The total amount received during the 2015-2016 fiscal year was approximately \$3,900,000. We estimated revenues in the current fiscal year to be approximately \$3,500,000. Based on the City's 2016 property values and adopted DeKalb County millage rates, it appears that the HOST distribution payments will be approximately \$4,100,000. HOST revenues are required to be used for capital expenditures. Future challenges to HOST distributions include the incorporation of additional municipalities and the possibility of DeKalb County adopting a restructured HOST and adding a Special Purpose Local Option Sales Tax (SPLOST).

In 2010, Decatur voters approved a referendum providing for the use of a Tax Allocation District (TAD) as a financing mechanism to pay for infrastructure improvements, parks, pedestrian and bicycling amenities and similar public improvements in a specifically designated district using revenues from increased property tax values from new development in the district. Typically, bonds are issued to fund public improvements and the increased tax revenues generated from new development and growth of the tax digest are pledged to pay for the bonds. The tax revenue generated by the base value will continue to flow into the general, school, capital improvement and DDA funds. Only the additional revenues generated by increased tax values will be used to help fund public improvements. Establishment of the district base value does not obligate the City, the City Schools of Decatur or DeKalb County to participate in the TAD.

In December, 2015, the City Commission adopted a redevelopment plan and established the 2015 property values as the “base value” for the East Decatur TAD, the City’s first district. By setting the base value, any increase in the tax digest over the district’s base value can be used to pay for public improvements. With the redevelopment of the Avondale MARTA station parking starting, it was essential to establish the base value for the district by the end of 2015 so that future new development and property value reevaluations could begin to be credited to the district.

City staff has briefed the School Superintendent and the City Schools of Decatur Board of Education about the TAD. Additional discussions are scheduled with the Board. City staff will also approach DeKalb County officials and it is anticipated that DeKalb’s decision to participate will occur in 2017.

The Georgia General Assembly continues to have the potential to affect the City’s future overall financial position. In 2008, the Georgia General Assembly enacted legal limitations to the growth of local real estate digests preventing increases to both residential and commercial real estate values from increasing. The legislation’s provisions expired with the establishment of the 2011 real estate digest. In 2012, the Georgia General Assembly adopted legislation that converted the ad valorem taxes on motor vehicles to an excise tax paid at the time of sale. Although there are provisions aimed at keeping local governments financially whole, research indicated that after five years, the change would result in reduced revenue for local governments. This appears to be the case as revenues from motor vehicles taxes has been reduced from approximately \$548,000 in FY 2013-2014 to \$509,000 in FY 2015-2016. It is certainly possible that the legislature may consider future actions which could restrict taxes collected based on the value of real property or they may look to restrict other revenue sources that local governments use to finance services.

Other impacts on the City’s financial statements which are beyond local control have primarily occurred due to pronouncements of the Governmental Accounting Standards Board (GASB). Although GASB has no legal authority to impose financial obligations, it has adopted rules that, in effect, manufacture financial commitments for local governments. GASB’s recent rule requiring accounting for other post employment benefits (OPEB’s) is an example of an “obligation” that must be accounted for in financial statements and results from GASB’s unrealistic definition of a “pay-as-you-go” system of benefits funding.

In 2012, the City Commission contracted with the Center for State and Local Government Excellence for a review of the City of Decatur Employees’ Retirement System. The results of the study indicated that:

- the City consistently made its annual required contribution, which keeps the pension plan on track to be fully funded over time;
- the Plan amortizes its liabilities over a 20-year period which is more conservative than most pension plans that amortize their unfunded liabilities over a 30-year period;
- the return on investment assumption for Decatur’s plan is 7.5 percent compared to 7.9 percent nationwide;
- the vesting period for both public safety and general employees is 10 years, which is somewhat higher than many state and local pension plans; and,
- the Plan does not provide automatic cost of living adjustments.

The study indicated that since 2005, the Retirement Plan’s funding ratio fluctuated from a low of 76.6 percent (in 2011) to a high of 85.9 percent (in 2007, before the economic downturn). In addition, the employer contributions have been steady, with total payroll costs ranging from 6.27 percent in 2016 to a high of 8.95 percent in 2005. The review

concluded that because of its fiscally conservative practices, the City is positioned to strengthen the funded status of its retirement plan more quickly than most other pension plans.

The Board of Trustees of the City of Decatur Employees' Retirement System has reviewed an actuarial experience study that assesses actual plan performance against plan assumptions over the past seven years. The plan actuary made a number of recommendations to adjust the actuarial assumptions to more accurately reflect actual plan experience. These include lowering over a five year period, the long term anticipated rate of return on plan assets from 7.5% to 7%; updating the mortality assumptions from the RP-2000 projected to 2020 (Scale AA) to the static RP 2014 table; lowering the rate of anticipated salary increases; and, modifying the anticipated employee retirement rates. The actuaries estimate that these changes should result in a .06% increase in the employer contribution in the initial year up to a 1.83% increase in the employer contribution in year five. These changes were adopted by the Board of Trustees effective with the funding of the plan for fiscal year beginning July 1, 2017.

The Board of Trustees is also reviewing a possible cost of living increase ranging from 1% - 3% for active retirees. The last cost of living increase was approved by the Board in 2001. The actuaries estimate that this change could result in a .55% - a 1.65% increase in the employer contribution depending on the amount, if amortized over a five-year period.

In December, 2014, the City Commission adopted a resolution asking the Georgia General Assembly to increase the general homestead exemption from \$20,000 to \$25,000; to increase the homestead exemption for people 65 years of age and older from \$1,000 to \$10,000; and, create a homestead exemption in the amount of \$15,000 for persons 62 years of age and older with incomes less than \$50,000. Local legislation was approved by the Georgia General Assembly and signed by the Governor to hold a referendum on the homestead exemptions during the November 8, 2016 election. All of the exemptions were approved by voters and will go into effect in 2017. The fiscal year 2016-2017 budget was developed with the assumption that the exemptions would be approved and estimated property tax revenues due on June 1, 2017 have been adjusted.

Since 2006, the City has used the National Research Center to conduct a citizen survey every other year. One of the questions asked what impact the responder thinks the economy would have on family income in the next six months. The following table summarizes the responses:

	2016	2014	2012	2010	2008	2006
Very Positive	4%	7%	4%	4%	3%	5%
Somewhat Positive	28%	32%	19%	11%	11%	19%
Neutral	56%	50%	53%	48%	46%	51%
Somewhat Negative	12%	11%	19%	28%	32%	21%
Very Negative	0%	0%	5%	9%	7%	4%

The results of the 2016 survey indicate that respondents generally feel that the potential effect of the economy will be positive to neutral, about the same as they did in 2014. The next survey is scheduled to be conducted in February, 2018.

Annexation

The issue of annexation for the City of Decatur is not new. From the turn of the 20th century through the late 1930's, the City annexed adjacent areas expanding the city limits from a small area directly surrounding the existing downtown Courthouse Square to the boundaries that exist today. In 1950, annexation of several areas predominantly to the north and east was proposed but never approved. The topic of annexation surfaced in 2008 but discussion was deferred in early 2009 to allow for the completion of the 2010 census so that data sets could be updated and the effect of the incorporation of the City of Dunwoody on DeKalb County tax rates could be determined.

In 2012, discussions began in earnest about possible annexation. The conversations started in part due to direction from the 2010 Strategic Plan which included "Goal 9 EXPAND AND DIVERSIFY THE CITY'S REVENUE BASE." This goal includes "Task 9B: Explore annexation options in partnership with the City Schools of Decatur that expand the property tax base and enhance school operations." After a lengthy public process, the City Commission ultimately adopted Resolutions R-12-18 and R-12-19 requesting that the Georgia General Assembly support local legislation for a limited annexation effort. A sponsor for the legislation was never secured and annexation efforts did not proceed. Toward the end of the 2013 Georgia General Assembly session, multiple bills were abruptly introduced to create new cities, including three bills that would have municipalized all of the northern part of DeKalb County. Despite significant activity during the Georgia General Assembly's 2014 legislative session, no bill for a new city in DeKalb County was passed.

In Summer, 2014 an annexation project steering committee was formed jointly by the City of Decatur and City Schools of Decatur to develop an Annexation Master Plan (AMP) that could be considered for presentation during the 2015 legislative session of the Georgia General Assembly.

A key objective for consideration of annexation was the possibility to expand and stabilize the property tax base. An analysis of the annexation areas shows that the City's real property digest would go from the existing ratio of 85% residential property/15% commercial property to 76% residential property/24% commercial property. In addition, a financial cost/benefit analysis of annexation areas indicated that estimated revenues would exceed estimated expenditures for the City and that after the first year, estimated revenues would exceed estimated expenditures for the City Schools of Decatur.

The City Commission adopted a resolution asking the General Assembly to pass legislation in the 2015 legislative session providing for annexation of the areas included in the AMP. The Board of Education adopted a resolution in support of the plan. A modified version that included a part of the AMP was approved by the Georgia House of Representatives; however, the legislation stalled in the Georgia Senate. The City Commission considered moving forward with Annexation legislation in the 2016 General Assembly session but decided to concentrate efforts on adoption of legislation supporting the homestead exemption legislation.

Currently, City of Decatur and City Schools of Decatur staff are working to develop a set of metrics based on housing type characteristics for the impact of any potential annexation area on student enrollment.

Conclusion

The City continues to be financially secure. The City takes a conservative approach to budgeting and finance, with an emphasis on estimating expenses on the high-end and estimating revenues on the low-end. This has resulted in controlled expenditures with low to moderate growth. This has also allowed the City to accumulate a healthy fund balance over the years which has been used to fund capital improvements and maintain a stable millage rate.

While there will continue to be challenges, we currently anticipate being able to rely on stable revenue increases supported by growth in the real property digest for the next several fiscal years with controlled expenditures and continued use of the City's traditional conservative budgeting practices.

Credit must be given to the City Commission for their unfailing support for maintaining the highest standards of professionalism in the management of the City of Decatur, Georgia's finances. The preparation of this report would not have been possible without the efficient and dedicated work of the entire staff of the Administrative Services Department, particularly City Clerk Janet Kindelberger. We would like to express our appreciation to all members of the City staff who assisted in and contributed to the preparation of this report.

FINANCIAL SECTION

INDEPENDENT AUDITOR'S REPORT

**Honorable Mayor and Members
Of the City Commission
City of Decatur, Georgia**

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the **City of Decatur, Georgia (the "City")** as of and for the fiscal year ended June 30, 2016, and the related notes to the financial statements, which collectively comprise the City's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the City of Decatur, Georgia as of June 30, 2016, and the respective changes in financial position and, where applicable, cash flows thereof, and the budgetary comparison for the General Fund for the fiscal year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters*Required Supplementary Information*

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis (on pages 4 through 21) and the pension and other postemployment benefit information (on pages 79 through 82) be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City's basic financial statements. The combining and individual nonmajor fund financial statements and schedules, as well as the introductory and statistical sections, as listed in the table of contents, are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The combining and individual nonmajor fund financial statements and schedules are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual nonmajor fund financial statements and schedules are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Information (Continued)

The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on them.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated December 14, 2016 on our consideration of the City's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the City's internal control over financial reporting and compliance.

CITY OF DECATUR, GEORGIA MANAGEMENT'S DISCUSSION AND ANALYSIS

As management of the City of Decatur (the "City"), we offer readers of the City of Decatur's financial statements this narrative overview and analysis of the financial activities of the City of Decatur for the fiscal year ended June 30, 2016. We encourage readers to consider the information presented here in conjunction with the letter of transmittal, financial statements and footnotes.

Overview of the Comprehensive Annual Financial Report

The Comprehensive Annual Financial Report (CAFR) is presented in three distinct sections:

- An Introductory Section which includes the Letter of Transmittal and general information;
- Financial Section which includes the Independent Auditor's Report, Management's Discussion and Analysis, Government-wide and Fund Financial Statements, along with Notes to these statements; and
- Statistical Section

Financial Highlights

- The liabilities and deferred inflows of resources of the City exceeded its assets and deferred outflows of resources at the close of the most recent fiscal year by \$67,375,606 (total net position). The issuance of \$75 million in general obligation bonds created a liability with no offsetting asset because the cash assets as well as capital construction assets are recorded on the City Schools of Decatur financials.
- In September 2006, Decatur voters approved a bond referendum that provided the City of Decatur and City Schools of Decatur with \$33,245,000 for capital improvement projects. This was the first general obligation debt for the City since 1955 and for the school system since the late 1950s. The bonds were issued in January 2007. Of the overall bond issue, \$16,500,000 was transferred to the school system. During this fiscal year, approximately \$1,460,000 was spent on City capital bond projects from the 2007 bonds, most of which funded streetscapes capital projects. In April 2015, the City closed on an advance refunding of the 2007 general obligation bonds to take advantage of favorable interest rates. The advance refunding is estimated to produce net present value savings of over \$2,600,000.
- In December 2010, the Urban Redevelopment Agency (URA) of the City of Decatur issued \$13,760,000 in recovery zone economic development bonds for major improvements to fire station #1, Decatur recreation center and the public works facility. The capital outlay for these projects was completed in fiscal year 2013-2014. During this fiscal year, the 2010 URA Bonds Fund solely accounted for the debt service obligations associated with the capital projects.
- In December 2012, the City issued \$5,415,000 in sales tax bonds on behalf of the City Schools of Decatur. The final payment on the 2012 notes is due November 2017.
- In May 2013, the Urban Redevelopment Agency of the City of Decatur issued \$29,290,000 in revenue bonds for the construction of the Beacon municipal center to include the police department, E911 operations, and municipal court as well as a regional stormwater project on the site. City Schools of Decatur is responsible for \$5,360,000 of the overall bond issue for the school's administrative facility on the site. During this fiscal year approximately \$300,500 was spent from the 2013 bond proceeds on this project.

MANAGEMENT'S DISCUSSION AND ANALYSIS

- In October 2013, the Urban Redevelopment Agency of the City of Decatur issued \$5,120,000 in revenue bonds for the purchase of the Callaway building in downtown Decatur for future redevelopment. Through a competitive bid process, a developer was selected to purchase and redevelop the site. The property was sold in August 2016 and the final debt service payment was made November 2016.
- In November 2015, Decatur voters approved a \$75 million general obligation bond issuance for City Schools of Decatur capital improvements projects. The general obligation bonds were issued in February 2016 and the proceeds were transferred to the school system.
- The City had \$36,133,337 in expenses related to governmental activities and \$8,497,000 or 23.6% of these expenses were offset by program specific charges for services, grants or contributions. General revenues, before transfers, were \$30,467,676 and \$20,148,826 or 66% of these revenues were from property taxes. The transfer of the 2016 general obligation bond issue to the school system is shown as a special item and results in total general revenues and special items of (\$45,511,337).

At the close of the current fiscal year, the City's governmental funds reported combined ending fund balances of \$30,937,216, an increase of \$3,862,106 in comparison with the prior year. The increase is due to increases in fund balances in the capital improvement, 2013 URA bonds, URA Callaway and general funds. At the end of the current fiscal year, unassigned fund balance for the general fund was \$7,139,791 or 32% of total general fund expenditures. The prior year's unassigned fund balance was \$7,137,056 or 33% of total general fund expenditures. This amount is available for spending at the government's discretion as it is unassigned fund balance as defined in the City's financial policies and in accordance with Statement 54 of the Governmental Accounting Standards Board (GASB). The general fund's overall fund balance, including nonspendable, restricted, committed, assigned and unassigned balances, increased by \$1,211,185 to \$8,420,470. Although the overall fund balance increased, the unassigned, or available, fund balance remains practically the same as the prior year because \$1.2 million is committed to be used from fund balance to cover projected expenditures for fiscal year 2016-2017. The increase in the fiscal year 2015-2016 fund balance resulted from actual expenditures that were lower than budgeted expenditures in all departments and actual revenues that were slightly higher than budgeted revenues. As a point of reference, the current fiscal year's fund balance is less than the fiscal year 2012-2013 fund balance of \$8,746,318.

Overview of the Financial Statements

This discussion and analysis is intended to serve as an introduction to the City's basic financial statements. The City's basic financial statements comprise three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

Government-wide financial statements. The government-wide financial statements are designed to provide readers with a broad overview of the City's finances, in a manner similar to a private-sector business. These statements provide both long-term and short-term information about the City's overall financial status.

The statement of net position presents information on all of the City's assets, liabilities, and deferred outflows/inflows of resources. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the City is improving or deteriorating. To assess the City's overall health, the reader needs to consider additional nonfinancial factors such as the City's tax base and the condition of the City's capital assets.

MANAGEMENT'S DISCUSSION AND ANALYSIS

The statement of activities presents information showing how the government's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cashflows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused vacation leave).

Both of the government-wide financial statements distinguish functions of the City that are principally supported by taxes and intergovernmental revenues (governmental activities) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (business-type activities). The governmental activities of the City include general government, public safety, public works and recreation. The business-type activities of the City include the conference center and parking deck, the stormwater utility and solid waste.

The government-wide financial statements include not only the City itself (known as the primary government), but also two discretely presented component units, the Downtown Development Authority and the Decatur Tourism Board. Financial information for the component units is reported separately from the financial information presented for the primary government itself.

The government-wide financial statements can be found on pages 22 and 23 of this report.

Fund financial statements. A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The City, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the City can be divided into three categories: governmental funds, proprietary funds, and fiduciary funds.

Governmental funds. Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental funds balance sheet and the governmental funds statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

MANAGEMENT'S DISCUSSION AND ANALYSIS

The City maintains fourteen individual governmental funds. Information is presented separately in the governmental funds balance sheet and in the governmental funds statement of revenues, expenditures, and changes in fund balances for the General Fund, 2013 URA Bonds Fund, URA Callaway Building Project Fund, Capital Improvement Fund and Debt Service Fund, which are considered to be major funds. Data from the other nine governmental funds are combined into a single, aggregated presentation. Individual fund data for each of these non-major governmental funds is provided in the form of combining statements elsewhere in this report.

The City adopts an annual appropriated budget for its General Fund. A budgetary comparison statement has been provided for the General Fund to demonstrate compliance with this budget.

The basic governmental fund financial statements can be found on pages 24 through 27 of this report.

Proprietary funds. The City maintains three enterprise funds in the proprietary fund group. Enterprise funds are used to report the same functions presented as business-type activities in the government-wide financial statements. The City of Decatur uses enterprise funds to account for its Conference & Parking Deck activities, the Stormwater Utility and for Solid Waste functions.

The basic proprietary fund financial statements can be found on pages 28 through 30 of this report.

Fiduciary funds. Fiduciary funds are used to account for resources held for the benefit of parties outside the government. Fiduciary funds are not reflected in the government-wide financial statement because the resources of those funds are not available to support the City's own programs. The accounting used for fiduciary funds is much like that used for proprietary funds.

The basic fiduciary fund financial statements can be found on pages 31 and 32 of this report.

Notes to the financial statements. The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found on pages 33 through 78 of this report.

Government-wide Financial Analysis

Net Position

As noted earlier, net position may serve over time as a useful indicator of a government's financial position. At the close of the most recent fiscal year the City's net position was (\$67,375,606) or \$73,410,494 less than the prior year. In general, assets remained stable. Liabilities increased by \$78,606,042. Bonds payable increased \$74,050,293 primarily due to the issuance of general obligation funds for the City Schools of Decatur. An increase of \$5,717,365 in the net pension liability and an increase of \$2,235,575 in the net OPEB liability also influenced the increase in total liabilities. More information on the pension liability and OPEB liability can be found in Notes 9 and 10 of the financial statements. Following is a description of the City's net position (in thousands) as compared to the previous year.

MANAGEMENT'S DISCUSSION AND ANALYSIS

City of Decatur Net Position						
	Governmental Activities		Business-type Activities		Total Primary Government	
	2015	2016	2015	2016	2015	2016
Assets						
Current assets	\$ 26,498	27,130	\$ 2,816	2,998	\$ 29,314	\$ 30,128
Capital assets	73,428	67,064	15,399	15,116	88,827	82,180
Other non-current assets	5,454	11,791	-	-	5,454	11,791
Total assets	105,380	105,985	18,215	18,114	123,595	124,099

Other liabilities & deferred inflows of resources	6,034	5,119	1,496	1,775	7,530	6,894
Total liabilities and deferred inflows of resources	117,063	195,291	3,278	3,869	120,341	199,160
Net Position						
Net investment in capital assets	8,347	10,030	15,399	15,116	23,746	25,146
Restricted	5,233	5,969	-	-	5,233	5,969
Unrestricted	(22,540)	(98,095)	(404)	(396)	(22,944)	(98,491)
Total net position	\$ (8,960)	\$ (82,096)	\$ 14,995	\$ 14,720	\$ 6,035	\$ (67,376)

The largest portion of the City's net position reflects its investment in capital assets (e.g., land, buildings, infrastructure, machinery, and equipment), less any related debt used to acquire those assets that is still outstanding. The City uses these capital assets to provide services; consequently, these assets are not currently available for future spending. Although the City's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

The remaining portions of the City's net position are either restricted \$5,969,002 or unrestricted deficit \$(98,490,307). The negative unrestricted net position results from two significant general obligation issuances on behalf of the city school system. In 2007, the city incurred \$33,245,000 in long-term debt of which \$16,500,000 was transferred to the school system. In 2016, the city issued \$75 million in general obligation bonds all of which was transferred to the school system. With the transfer of title to the school system, the capital assets related to the school portion of the bond issuances are not reported on the city's statement of net position, thus resulting in a deficit in the unrestricted portion of net position and a deficit in the overall net position for governmental activities.

Changes in Net Position

At the conclusion of fiscal year 2016 the City's net position decreased by \$73,410,494, most of which can be attributed to the issuance of \$75,000,000 in general obligation bonds for use by the school system with no offsetting assets on the city's financial statements. The schedule on the following page presents a summary of changes in net position for the fiscal year ending June 30, 2016 (in thousands):

MANAGEMENT'S DISCUSSION AND ANALYSIS

Revenues

Governmental charges for services decreased by approximately \$980,000 or thirteen percent from the previous fiscal year. Within that category, general government charges for services decreased \$787,000 mostly due to a decrease in development related fee revenues. Development activity remains strong but the two prior years represented a period of exceptional growth with multiple commercial development projects. Public safety related charges decreased fourteen percent from fiscal year 2014-2015 primarily because the dedicated traffic enforcement unit was not fully staffed. Recreation charges for services increased eight percent resulting from a strong demand for the programs provided by the Active Living and Children and Youth Services divisions in addition to increased capacity at Ebster Gym and Ebster Recreation Center. Operating grants and contributions were slightly lower partly due to less interest on long-term debt as the funds are spent on capital projects. Capital grants and contributions increased by \$721,836 primarily due to funding from the Georgia Department of Transportation's Transportation Enhancement Program for the Oakhurst and Downtown Decatur Phase V streetscapes projects as well as a grant from the Federal Emergency Management Agency's (FEMA) Flood Mitigation Assistance Project to acquire flood-prone property. Property taxes, including real estate and personal property, increased \$2,429,189 or almost 14% from the prior year. This increase occurred as a result of a 6% increase in the 2016 real property digest which is consistent with the overall local economy as well as the increase in the debt service millage rate to cover the debt service on the school general obligation bonds that were approved by the voters in November 2015. Franchise taxes increased \$59,530 or almost 4% with slight increases in taxes from cable television, electric and video service franchises. Sales taxes decreased \$674,485 due to a decrease in revenue from the homestead option sales tax (HOST). The lawsuit with DeKalb County over the HOST distribution was resolved in 2012 which resulted in the Georgia Department of Revenue commencing the distribution of HOST collections directly to the City as permitted under O.C.G.A. 48-8-104(d)(3). Investment earnings increased \$1,900,031, of which \$1,246,010 is attributed to the value of the Callaway building. An additional \$661,496 recognizes accumulated interest income for the series 2013B bonds that financed the City Schools of Decatur Central Office.

Charges for services for business-type activities increased approximately \$91,800. The increase is almost evenly split between the solid waste and stormwater activities. The majority of the stormwater increase is due to additional participation in the City's regional stormwater management facility. The increase in solid waste charges for services results from an increase in March 2016 in the residential sanitation fee from \$240 to \$250 in response to increasing costs associated with recycling services as well as slight increases in fees for some commercial sanitation services.

Expenses

General Government expenses decreased \$41,363 or less than .5%. Public Safety expenses increased \$1,352,137 or around 12%; Public Works expenses increased \$670,315 or just under 18%; Recreation expenses increased \$307,201 or 7%. Interest on long-term debt increased by \$950,154. Increases in general operating expenses were largely in personnel-related areas, landscape maintenance and repair, contractual services and electricity.

MANAGEMENT'S DISCUSSION AND ANALYSIS

Expenses for business-type activities increased \$241,344. Conference Center expenses increased \$5,513. Stormwater expenses decreased \$35,257 primarily due a reduction in street milling-related expenses. The fiscal year 2014-2015 expenses were higher due to milling and paving project around the Beacon Municipal Center project. Solid Waste expenses increased \$271,088. There were increases in personnel-related expenses as well as increases in landfill disposal costs and recycling services.

Financial Analysis of the Government's Funds

As noted earlier, the City uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental funds. The focus of the City's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the City's financing requirements. In particular, unassigned and assigned fund balances may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year or for use during the fiscal year to balance cash flow needs.

As of the end of the current fiscal year, the City of Decatur, Georgia's governmental funds reported combined ending fund balances of \$30,937,216, an increase of \$3,862,106 in comparison with the prior year. Approximately twenty-three percent of the total amount, \$7,114,552, constitutes unassigned fund balance, which is available for spending at the government's discretion. The remainder of fund balance (\$23,822,664) is within the following classifications: \$8,023,437 is nonspendable which means that it is not available for new spending because it is a non-cash asset such as inventories, prepaid items, advances or assets held for resale; \$11,750,148 is restricted which means that it is legally restricted for specific purposes. Specifically, this fund balance is restricted for 1) capital construction (\$5,864,726); 2) equipment purchases (\$227,058); 3) debt service (\$5,376,692); 4) law enforcement (\$13,771); and 5) Public Safety-E911 (\$267,901). \$1,298,736 is committed which means it can only be used for specific purposes pursuant to a formal vote of the City Commission. Fund balance is committed for 1) tree preservation (\$167,745) and 2) Children and Youth Services (\$1,130,991). \$2,750,343 of fund balance is assigned which is any amount intended to be used for specific purposes as determined by the City Manager. Fund balance is assigned for 1) fiscal year 2017 operations (\$1,224,340); 2) greenspace acquisition (\$12,765); 3) development activities (\$323,701); 4) cemetery operations (\$202,671); and 5) equipment purchases (\$986,866).

The general fund is the chief operating fund of the City of Decatur, Georgia. At the end of the current fiscal year, the fund balance of the general fund was \$8,420,470, while the total fund balance for all governmental funds was \$30,937,216. As a measure of the general fund's liquidity, it may be useful to compare fund balance to total fund expenditures. Unassigned fund balance represents thirty-two percent of total general fund expenditures. At the end of fiscal year 2014-2015, unassigned fund balance represented thirty-three percent of total general fund expenditures.

MANAGEMENT'S DISCUSSION AND ANALYSIS

The table below compares general fund revenues and expenditures for 2015 and 2016 (in thousands).

	2015	2016	\$ Increase (Decrease)	% Increase (Decrease)
Revenues				
Taxes	\$ 17,860	\$ 19,733	\$ 1,873	%

Excess of revenues over expenditures	1,462	1,392	(70)	(5)
Other financing sources (uses)				
Proceeds from sale of capital assets	9	-	(9)	(100)
Transfers in	740	575	(165)	(22)
Transfers out	(504)	(756)	(252)	50
Total other financing sources (uses)	<u>245</u>	<u>(181)</u>	<u>(426)</u>	<u>(174)</u>
Net change in fund balances	1,707	1,211	(496)	(29)
Fund balances, beginning of year	5,502	7,209	1,707	31
Fund balances, end of year	<u>\$ 7,209</u>	<u>\$ 8,420</u>	<u>\$ 1,211</u>	<u>% 17</u>

General Fund Revenues

Revenue from all taxes increased approximately \$1,873,400 or ten percent more than the prior year as the real property digest increased by 6%. The largest single source of revenue for the City's general fund operations is real property tax which totals over \$14,400,000. Other, non-real estate taxes also contributed to the increase in tax revenues. Specifically, property transfer taxes increased 36%, occupation taxes increased 9%, intangibles taxes increased 7%, insurance premium taxes increased 6%, and franchise taxes increased 4%. The increase in the property transfer tax reflects robust activity in the local real estate market. Other tax categories decreased. Public utility taxes decreased by \$23,268, motor vehicle taxes decreased by \$34,796 and business personal property decreased by \$11,316. Other tax revenues remained stable. Licenses and permits decreased \$775,783 or 54% as a result of less revenue from development-related permits. There is an offsetting reduction in expenditures for outsourced development permitting and inspections services.

MANAGEMENT'S DISCUSSION AND ANALYSIS

Fines and forfeitures decreased \$630,458 to \$706,682. Most of the decrease is in fine revenue related to code violations. The absence of a dedicated traffic enforcement unit has contributed to this reduction. Other decreases have resulted from a judicial reduction in the failure to appear fee and lower revenue from the school bus stop arm camera program. Charges for services increased \$401,190 or 26% mostly from an increase in parking meter fee revenue. The ability to pay by credit and utilize a mobile application has contributed to the increase in parking meter revenue. Increased demand for recreation programs and facility rentals has increased recreation-related fee revenue. Intergovernmental revenues decreased \$38,146 or 9% due to a reduction in management fees charged by the City to the Decatur Downtown Development Authority.

General Fund Expenditures

Overall general fund expenditures increased \$895,732 or just over 4% from the prior year and remained well within the overall budget. Most of the increase is in personnel services. Regular and part-time salaries increased \$448,532 over the prior year. This increase represents the addition of five full-time positions and three new part-time positions in Active Living. These positions respond to increased service demands and internal organization needs. There was no general salary adjustment in the 2015-2016 budget but regular, full-time employees within their salary range were eligible for a 2.5% merit increase. Health insurance costs increased \$554,669 from the prior year. The increase was a combination of claims incurred in fiscal year 2014-2015 but not paid until 2015-2016 as well as increasing claims costs towards the end of the fiscal year mostly due to a small number of claimants. As anticipated, professional services decreased \$314,000 primarily due to the building inspection services provided by Safebuilt; this decrease also meant a decrease in revenues from building permits. Construction activity was strong in fiscal year 2015-2016 but many of the large, active development projects were permitted in the previous year. A decrease in professional services also resulted from the completion of the Unified Development Ordinance project in fiscal year 2014-2015. A line item that experienced a significant increase was electricity which has increased as a result of new and expanded city facilities. General Government expenditures increased \$165,339 or 2% due to increases in personnel-related expenditures, contractual services, legal services fees and utilities. Public Safety increased \$419,549 or 5% due to personnel-related expenses, specialized crime analysis software, and increased training expenses. Public Works expenditures increased \$217,967 or 7%. Most of the increase is in personnel services including the addition of two crew workers, one each in buildings and grounds maintenance. Other increases include tree maintenance and removal costs and an increase in the HVAC maintenance contract. Recreation expenditures increased \$92,877 or 5% which reflects the increases in personnel-related expenditures due to new active living part-time positions for the athletics division and the recreation division at Ebster Recreation Center. Program fees at both recreation centers help to offset the costs associated with these positions.

Transfers from other funds decreased from \$739,715 to \$574,566 which reflects a decrease of \$165,149, a result of a decrease in the transfers from the general obligation bond fund and 2010 URA fund for capital bond project management services as the capital projects funded by those revenues come to a close. The overhead costs charged to the solid waste and stormwater funds were reduced by the amount of the solid waste fee and stormwater fee waivers for seniors as approved by the City Commission in 2015 and 2016. Transfers to other funds were \$251,820 higher than the prior year as a result of a transfer of \$180,000 to the capital improvements fund to purchase land for a cottage court demonstration project, an additional \$50,000 was transferred to the E911 fund to cover the fund's operating costs and a transfer of \$25,795 was made to the tree bank fund to correct an accounting error. Before accounting for transfers, revenues exceeded expenditures by \$1,392,414. After accounting for transfers in and out, the addition to fund balance was \$1,211,185, resulting in an end of year fund balance of \$8,420,470 which is \$571,355 more than the amount anticipated in the final, revised budget.

MANAGEMENT'S DISCUSSION AND ANALYSIS

Other Fund Activities

2013 URA Bonds Fund. The 2013 URA Bonds Fund accounts for the \$29,290,000 in revenue bonds that were issued in April 2013 for the construction of the Beacon municipal center to include the police department, E911 operations, and municipal court as well as a large stormwater project on the site. City Schools of Decatur is responsible for \$5,360,000 of the overall bond issue for the school's administrative facility on the site. At the end of the fiscal year, the fund balance was \$12,984 as the project is substantially complete. The negative fund balance from the prior year was eliminated as the school portion of the accumulated interest payments was recognized as intergovernmental revenue, offsetting the interest payment expenditures.

URA Callaway Building Project Fund. The URA Callaway Building Project Fund accounts for the \$5,120,000 in taxable revenue bonds that were issued in October 2013 for the purchase of the Callaway building from DeKalb County for the purpose of redevelopment. Interest only payments will be made until the principal amount is due on November 1, 2016. The Urban Redevelopment Agency has entered into an agreement with the building's tenant, DeKalb County, and the lease payments are an amount adequate to cover the interest payments. A competitive bid process has been conducted and a developer has been selected to purchase and redevelop the site upon the County vacating the building within 30 months from the date of the URA purchase. The fund ended the year with a fund balance of \$6,659,011 because the purchase of the Callaway building is categorized as an asset held for resale on the balance sheet in addition to an increase in the fair value of the property as well as the lease payments received by the tenant.

Capital Improvement Fund. The Capital Improvement Fund's fund balance increased by \$1,733,910 to \$7,711,038. Overall revenues were about \$541,000 lower than the prior year. HOST revenues shrunk by \$720,000 but other tax revenue was about \$284,000 higher than the prior year. The purpose of the capital improvement fund is to provide for construction of major capital improvements and to purchase capital equipment items for operating departments. Major capital outlay projects in fiscal year 2016 included streets repair and paving, traffic calming projects, rights-of-way acquisition, sidewalk repair and installation, and lease payments for a variety of vehicles and other equipment. The capital improvement fund transferred about \$2,354,000 to other funds for debt service and capital construction projects. The issuance of the \$75 million City Schools of Decatur general obligation bonds was accounted for in the capital improvement fund.

Debt Service Fund. The Debt Service Fund's fund balance decreased by \$675,092 all of which is restricted for the payment of debt service. The fund balance is used to cover cash flow needs for debt service payments for the general obligation bonds issued in 2007 and refunded in 2015 as well as the general obligation bonds issued in 2016 for the school system. The fund balance of \$5,900,233 is comprised of \$1,043,600 for the City's debt service, \$1,210,000 for the school general obligation debt service and the balance is for the school system's debt service on 2012 sales tax notes in the amount of \$5,415,000 which the City is required to report although the City never possessed the funds and the school system is responsible for paying back the debt with sales tax revenue. It is anticipated that the school system will complete the debt payments for the 2012 sales tax notes in fiscal year 2018. The debt service millage rate was increased by 1.57 mills in March 2016 in advance of the first debt service payment on the school general obligation debt due August 1, 2016.

The activities of other non-major governmental funds can be found on pages 83 and 84.

MANAGEMENT'S DISCUSSION AND ANALYSIS

Proprietary funds. The City's proprietary funds provide the same type of information found in the government-wide financial statements, but in more detail. The City maintains three enterprise funds that account for activities of the city that are operated in a business fashion. Those funds include the Conference Center and Parking Deck Fund, the Stormwater Utility Fund and the Solid Waste Fund.

Conference and Parking Deck Fund. The City entered into a long term management services agreement with the Downtown Development Authority (DDA) for operation of the conference center and parking deck. The DDA sublets the management and operation of the conference center and the DDA manages the parking deck through a contract with a parking management vendor. Hotel/motel tax collections for the upkeep and maintenance of the conference center are placed in a reserve account to be used by the conference center management company for maintenance of the facility. The transfer from the hotel/motel tax fund was \$174,740 and placed in a reserve account with the DDA. This was approximately \$16,000 higher than the prior year. The audit includes this amount in 'cost of sales and services' in addition to the \$21,691 in planned maintenance and repairs to the conference center's parking deck. Depreciation expenses remained flat. A maintenance reserve account has also been created with revenue from the parking deck management contract. The revenue in this account, as managed by the DDA, is available for maintenance and repairs for the parking deck. The conference center and parking deck fund ended the year with \$37,631 in cash available from prior years' service fees for maintenance and repair needs in the parking deck.

Stormwater Utility Fund. The stormwater utility fund accounts for the collection of fees for planning, repairs, maintenance and construction of the City's stormwater system based on a calculation of each property's impervious surface using a measurement of equivalent residential units or ERUs. The total net position of the stormwater utility fund increased by \$190,179 to \$14,093,544. The City's regional stormwater management facility represents over \$10 million of the fund's total net position. Revenue from annual stormwater fees increased by \$46,951. Stormwater fees included \$159,026 from fees paid into the regional stormwater facility for the housing authority's Trinity Walk development. Operating expenses decreased \$35,257 or 4% due to lower expenses for infrastructure repair and maintenance. The fund transferred \$236,000 to the general fund for indirect costs. The transfer to the general fund was reduced by \$28,800 to offset the cost of the waiver of the stormwater fee for low-income seniors. In June 2016, the City Commission approved an increase in the ERU from \$75 to \$100. The previous fee had been adopted in 2005. The fee increase was needed to address capital stormwater needs. Otherwise, only operating and indirect costs were being covered by the fee revenue with little remaining for capital improvements. This fund ended the year with over \$1,470,000 in cash available for operating and capital expenses.

Solid Waste Fund. The solid waste fund accounts for the collection of fees for residential and commercial sanitation services. Revenues in this fund increased \$49,907 or 2% from the prior year. In March 2016, the City Commission increased the single-family residential fee from \$240 to \$250 and increased rates for the 95 gallon carts and 3 cubic yard containers. The increase in the single-family residential fee was recommended to cover increased recycling hauling costs that had gone into effect in July 2015. An additional increase in the single-family residential fee was approved by the City Commission in June 2016 from \$250 to \$275 to cover the cost for providing separate recycling collection service for glass. Operating expenses increased \$271,088 or 12% with increases in regular salaries, OPEB costs, disposal fees, recycling services and capital outlay. While the GASB statement No. 68 was effective for the City on July 1, 2014, the impact is much greater in the fiscal year 2015-2016 financial reports. In addition to the government-wide financial statements, the net pension liability is reported in two of the proprietary funds including the solid waste fund. The net pension liability for the fund is reported cumulatively over two years at \$660,583. The transfer to the general fund for indirect costs decreased from \$104,510 to \$57,010.

MANAGEMENT'S DISCUSSION AND ANALYSIS

The reduction reflects a credit of \$87,770 to the solid waste fund from the general fund for the value of the waiver of the residential solid waste fee for low-income seniors. Total net position decreased by \$143,239 which increased the fund deficit to \$(540,039). By June 30, 2016 the commercial sanitation collection rate for the 2016 service year was 92.6%. Nonetheless, the collection rate should reach over 99% within 10 months of billing. The solid waste fund ended with a positive cash position with cash balances at June 30, 2016 of \$2,184,333. The Public Works staff continues to analyze costs and service charges to confirm that fees charged cover the cost of services delivered as well as developing alternative service delivery options to reduce costs and to reduce the deficit in total net position.

Fiduciary Funds. Fiduciary funds are used to account for resources held for the benefit of parties outside the government. Fiduciary funds are not reflected in the government-wide financial statements because the resources of those funds are not available to support the City's own programs. The accounting used for fiduciary funds is much like that used for proprietary funds. The primary fiduciary fund is the Pension Trust Fund that holds assets to be used for paying pension obligations of city employees. The Pension Trust Fund had a net decrease of \$338,457 to net position during fiscal year 2015-2016 reflecting a slight loss in the financial markets. The net position restricted for benefits remains healthy at \$37,460,106.

General Fund Budgetary Highlights

The General Fund Statement of Revenues, Expenditures and Changes in Fund Balances – Budget and Actual, can be found on page 27. The original and final budgets anticipated an addition to fund balance to increase the total fund balance. Actual revenues were \$6,703 more than the final budgeted amounts. There were no significant variations from budgeted revenue line items because the final budget was adopted after the end of the fiscal year. This practice was used to address overages in specific line items but did not change the total amount approved for expenditures. Actual general fund expenditures were \$563,721 less than the final budget. Personnel related services were \$194,000 less than budgeted. Specifically, full- and part-time salaries were almost \$100,000 less than budgeted and group insurance costs were almost \$40,000 less than budgeted. There were significant savings in other line items including professional services, contractual services, dues and fees, business meetings, specialized supplies, software, and uniforms. The budget anticipated adding \$639,830 to fund balance. Higher revenues and lower than budgeted expenditures resulted in an addition to fund balance of \$1,211,185. This is \$571,355 more than anticipated and resulted in an ending fund balance of \$8,420,470.

Capital Asset and Debt Administration

Capital assets. The City's investment in capital assets for its governmental and business type activities as of June 30, 2016, amounts to \$82,179,209 (net of accumulated depreciation). This investment in capital assets includes land, buildings and fixtures, improvements, machinery and equipment, vehicles, and infrastructure (roads, bridges and drainage culverts, etc.). The City's investment in capital assets decreased from \$88,826,545 to \$82,179,209 as activity associated with the City's capital improvements program has moderated. The City has invested in capital assets through the continuing expenditure of bond proceeds for the fire station #1 renovation and addition, cemetery improvements, sidewalk construction, streetscapes improvements, Decatur recreation center renovation, public works facility renovation and the Beacon municipal center capital project. Additional information on the City's capital assets can be found in Note 6 on pages 54 through 56 of this report. The following table summarizes the capital assets (net of depreciation) for governmental activities, business-type activities and the total for the primary government.

MANAGEMENT'S DISCUSSION AND ANALYSIS

Capital Assets (net of depreciation)

	Governmental Activities		Business-type Activities		Total Primary Government	
	2015	2016	2015	2016	2015	2016

Long-term Debt and Capital Leases. At the end of the current fiscal year, the City had long-term bonded debt in the amount of \$157,406,030 including the bond issuance premium. State statutes limit the amount of general obligation debt a governmental entity may issue to 10 percent of its total assessed valuation. The City's total assessed valuation for fiscal 2016 is \$1,720,542,000 with a current debt limitation for the City of \$172,054,000, not including current debt outstanding. Current debt that is applied to the debt limit totals \$106,497,000 which leaves

the City with a legal debt margin of \$65,557,000. The ratio of the City's outstanding general obligation bond debt to assessed valuation is 6%.

The City has entered into lease agreements for financing the acquisition of equipment, machinery and improvements. The total amount of machinery, equipment and vehicles under capital leases at June 30, 2016 was \$1,789,001 and there has been \$614,458 of accumulated depreciation as of year-end.

At June 30, 2016, the City had long-term debt in the amount of \$192,266,409 which was comprised of \$157,406,030 in bonds payable, \$32,766,239 in capital leases, notes payable, certificates of participation, claims and judgments, net OPEB obligation, net pension liability and compensated absences in the governmental activities and \$2,094,140 in net OPEB obligation, net pension liability and compensated absences in the business-type activities.

The long-term debt in governmental activities includes \$3,692,233 in notes payable and related issuance premium for the school system sales tax notes issued in 2012. The long-term debt also includes the general obligation bonds issued in January 2007 and refinanced in April 2015, the recovery zone economic development bonds issued in December 2010, revenue bonds issued in May 2013, taxable revenue bonds issued in October 2013 and general obligation bonds issued in February 2016 for the City Schools of Decatur. The 2007 bond issuance financed approximately \$16,500,000 worth of capital improvements for city-related capital projects, including transportation improvements, parks and recreation improvements, greenspace acquisition, public safety facility renovations, and public works improvements. The City Schools of Decatur have used approximately \$16,500,000 for school-related capital projects. The 2010 bond issuance financed approximately \$13,760,000 of capital improvement projects including fire station #1, Decatur recreation center and the public works facility. Also included in the long-term debt are the certificates of participation issued in July 2005 in the principal amount of

MANAGEMENT'S DISCUSSION AND ANALYSIS

\$2,810,000 to finance the renovation and addition of Decatur City Hall. In February 2015, the City negotiated a reduction in the interest rate on the Series 2005 certificates of participation from 3.91% to 2.6%. This reduction will result in a net present value savings of \$132,200 over the term of the certificates of participation. The May 2013 bond issuance funded the construction of the Beacon municipal center which includes the police department, E911 operation, Ebster recreation center and gym, and municipal court as well as a large stormwater project on the site. City Schools of Decatur is responsible for \$5,360,000 of the overall bond issue for the school's administrative facility on the site. The October 2013 bond issuance of \$5,120,000 financed the purchase of the Callaway building from DeKalb County for the purpose redevelopment. Lease payments from the tenant, DeKalb County, offset the interest payments until the sale of the building to a private developer. Note 18-Subsequent Event-notes that the URA sold the property on August 26, 2016 and proceeds from the sale were placed into a debt service sinking fund to retire the Series 2013C revenue upon maturity on November 1, 2016. The City issued general obligation bonds in February 2016 in order to disburse \$75 million to the City Schools of Decatur for various capital projects. The transfer of the bonds to the school system as well as the issuance costs are shown as a special item on the Statement of Activities.

Additional information on the City's long-term debt can be found in Note 7 on pages 57 through 63 of this report.

Pension and Other Post Employment Benefits. The City of Decatur, Georgia sponsors a single-employer defined benefit pension plan for all of its full-time employees. Annually, an independent actuary engaged by the Board of Trustees of the retirement system calculates the amount of the annual contribution that the City must make to the pension plan to ensure that the plan will be able to fully meet its obligations to retired employees on a timely basis. The City normally fully funds the annually determined contribution to the retirement system as determined by the actuary. The City's contribution of \$941,003 exceeds the actuarially determined contribution for the fiscal year ending June 30, 2016.

The provisions of Governmental Accounting Standards Board (GASB) Statement No. 67 went into effect on July 1, 2013. This statement relates to the pension plan accounting and results in significant changes to the actuarial reporting and financial report footnotes. The provisions of GASB Statement No. 68, *Accounting and Financial Reporting for Pensions-an amendment of GASB Statement No. 27*, were effective July 1, 2014 and significantly change the City's accounting for pension amounts. GASB asserts that the new standard will improve accounting and financial reporting by state and local governments for pensions.

GASB Statement No. 68 relates to employer accounting and results in changes to the accounting in the statements of net position and changes in net position for the pension trust fund. Readers of the financial report will see the inclusion of the net pension liability to the government-wide financial statements. The net pension liability is the difference between the Total Pension Liability and Plan Fiduciary Net Position. Essentially, the net pension liability is the plan's unfunded pension obligation which GASB has determined meets the definition of a liability and should be recognized in the basic financial statements.

It is important to note that the GASB statements refer to plan accounting, not funding. The City continues to use the actuarially determined contribution (ARC) to determine appropriate funding of the pension plan.

At June 30, 2016, City's total pension liability was \$47,793,242. The plan fiduciary net position was \$37,460,106 resulting in the City's net pension liability of \$10,333,136. The plan fiduciary net position as a percentage of the total pension liability was 78.4%.

MANAGEMENT'S DISCUSSION AND ANALYSIS

The plan's funded ratio, an indicator of funding status, decreased from 86.4% to 78.4%. According to the Center for State and Local Government Excellence, in 2015 only 38% of plans were over 80% funded. Bear in mind that the total pension liability used to calculate the net pension liability was determined by an actuarial valuation. This evaluation used updated, conservative assumptions based on the results of an experience study that was completed in August 2015 taking into account seven years of data experience. It's important to note that the net pension liability is sensitive to changes in the discount rate. The discount rate of 7% is conservative. An increase in the rate by 1% results in a reduction of the liability of almost \$5 million.

The City also provides post retirement health and dental care benefits for certain retirees and their dependents. As of July 1, 2015, the most recent actuarial dates, there were 78 retired employees and beneficiaries receiving these benefits, which are financed on a pay-as-you-go basis. Starting in the 2008-2009 fiscal year the City had to account for other post employment benefits in accordance with GASB Standard 45. An independent actuarial analysis determined that the City's cumulative future liability for these benefits or net OPEB obligation was \$15,829,533. This amount was accounted for as a liability on the City's statement of net position. The City does not have a contract nor agreement with retirees to provide these benefits. Rather, the continuation of these benefits is contingent upon annual budget approval by the City Commission.

Additional information on the City of Decatur, Georgia's pension arrangements and post employment benefits can be found in Notes 9 and 10 in the notes to the financial statements.

Economic Factors

The economic outlook for the City is positive. The 2016 certified real property digest is 6% higher than the final 2015 digest. Eighty-seven percent of the increase in the digest is due to added new value and the remaining thirteen percent is revaluation of existing properties. This increase is consistent with local real estate sales reports and recent permitting activity. It is anticipated that the positive trend will continue but at a slower pace than the recent years. Large commercial development projects in the downtown business district are in various phases of development. A mixed-use development on West Ponce de Leon Avenue has been completed. This 233 unit apartment component is over 90% leased and all of the street-level retail spaces are leased. The Alexan development, located on Commerce Drive, is completed and leasing activity is robust. This project includes 173 residential units. The Arlo, is a mixed use development on E. Trinity Place that includes 210 apartment units and 13,000 square feet of street level retail. This project has just started leasing. All three of these projects bring much-needed rental apartments to the central business district, increasing downtown pedestrian counts and a younger client base for the retail and restaurant businesses. A conservative construction value for these three projects indicates at least \$80 million in new property value in the downtown commercial district.

As stated previously, the Callaway building in downtown Decatur was sold to a private developer in August 2016 for redevelopment. With an estimated 2018 completion date, this property should be fully valued on the 2019 tax digest.

Additional growth is anticipated for 2017 based on the level of new residential construction and increasing values associated with the desirability of the community. The City's tax collection rate remains high at 99.9% and the City has not experienced a significant increase in delinquent accounts. Revenue concerns include the uncertain future of franchise taxes and motor vehicle taxes, legislative interference in restricting local government revenue sources and local government control of finance and budgeting decisions. Ultimately, the City's conservative financial practices, long-term planning, culture of innovation, and strategic approach to financial challenges have resulted in the City's ability to avoid layoffs and furloughs and to maintain high quality service delivery.

MANAGEMENT'S DISCUSSION AND ANALYSIS

After legislative efforts were not successful in 2015, the City Commission again requested legislation that would increase homestead exemptions for all property owners but especially lower income senior homeowners. The legislation was approved by the Georgia House of Representatives resulting in a referendum in November that approved all of the homestead exemptions. This allows tax relief in the form of homestead exemptions to go into effect in 2017.

The unemployment rate for DeKalb County is currently 5.4%, down from 6.0% a year ago. Unemployment rates are not available for the City of Decatur but due to the diversity of the employment base, it is likely that the City's rate would be slightly lower. The occupancy rate of the City's business district is approximately 92% as compared to the greater Atlanta area that averages an 88% occupancy rate. Inflationary trends in the region compare favorably to national indices. Interest in downtown Decatur commercial space remains high with newer tenants representing smaller professional, service and creative businesses that will bring a healthier mix of businesses capable of weathering changes in the new economy. Residential living units in the central business district continue to add to the economic vitality of the district.

In November 2015, voters approved a \$75 million general obligation bond issue for the City Schools of Decatur capital facility needs related to increasing enrollment. The bonds were issued in February 2016. The school enrollment is currently over 4,600 students and the system has projected an additional 2,000 students within the next five years. The overall millage rate, including the school millage rate, is 31.83 mills. This is 1.67 mills less than the 2014 millage rate. The millage rate was increased 1.17 mills in 2016 from 2015 to cover the debt service on the City Schools of Decatur general obligation bonds.

The Moody's Investors Services rating report dated January 19, 2016 in anticipation of the \$75 million general obligation bond issue for the school system summed up the City's financial position well. The report stated that "The city's sound financial position is supported by an established record of proactive management, comprehensive fiscal policies, and healthy fund balance levels." The fiscal year 2015-2016 audit report reflects this statement and the City's current and future practices continue to promote these core financial management principles.

Next Year's Budget

At June 30, 2016, unassigned fund balance in the general fund was \$7,139,791. The City has estimated that \$1,224,340 will be deducted from fund balance in the 2017 fiscal year budget bringing the total fund balance to \$5,915,451 or 24% of budgeted expenditures. This is consistent with the City's fund balance policy which strives to maintain an unreserved, unassigned fund balance between twenty and thirty percent of the operating budget. The budget includes funding for a 2.5% merit increase for employees who are still below the maximum in their salary range and a one-pay period, merit-based pay adjustment but no overall salary range adjustment. The 2017 fiscal year budget includes the addition of two full-time positions that are funded through program fees and charges. The 2017 budget maintains the partially self-insured model for group health benefits and expands the wellness program to include health coaching through Corporate Health Partners. The City's required contribution to the Employees' Retirement System is reduced from 9% to 8% of payroll based on actuarial funding requirements.

The budgeted projects and activities directly support the following strategic plan principles: Principle A: Manage growth while retaining character; Principle B: Encourage a diverse and engaged community; Principle C: Serve as good stewards of the environment and community resources; Principle D: Support a safe, healthy, lifelong community; and an internally developed principle, Principle E: Provide the necessary support within city government to achieve the vision and goals of the community. Capital investments will be financed through the

MANAGEMENT'S DISCUSSION AND ANALYSIS

capital improvements fund, the general obligation bond financing that was approved in September 2006, recovery zone economic development bonds that were issued in December 2010 and revenue bonds that were issued in April and October 2013. While the City carries the debt obligation liability for the 2016 school general obligation bonds but no offsetting asset, the resulting school improvements should be viewed as a community asset to meet the needs of the growing student population.

Requests for Information

This financial report is designed to provide a general overview of the City of Decatur's finances for all those with an interest in the government's finances. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to the City Manager, 509 North McDonough Street, City of Decatur, Georgia 30030. This report and other financial reports can be viewed on the City of Decatur's website at www.decaturga.com within the Administrative Services Department section.

Amounts reported for governmental activities in the statement of net position are different because:							
Capital assets used in governmental activities are not current financial resources and, therefore, are not reported in the funds.							67,063,547
Some receivables are not available to pay for current-period expenditures and, therefore, are deferred in the funds.							288,986
Receivables of governmental activities arising from capital leases and interest are not current financial resources and, therefore, are not reported in the governmental funds.							5,079,013
The fair market value of an effective hedging instrument is not a current financial resource used in governmental activities and therefore is not reported in the governmental funds.							490,928
Long-term liabilities are not due and payable in the current period and, therefore, are not reported in the funds.							(181,209,737)
Revenues from an effective hedging instrument are not recognized until the hedge is used by the holder, and therefore are deferred in governmental activities.							(490,928)
The deferred outflows of resources and the net pension liability related to the City's pension plan are not expected to be liquidated with expendable financial resources and, therefore, are not reported in the funds.							(4,254,597)
Net position of governmental activities							\$ (82,095,572)

CITY OF DECATUR, GEORGIA

RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES, AND CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES FOR THE FISCAL YEAR ENDED JUNE 30, 2016

Amounts reported for governmental activities in the statement of activities are different because:

Net change in fund balances - total governmental funds	\$ 3,862,106
Governmental funds report capital outlays as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which depreciation expense exceeded capital outlays in the current period.	(378,881)
In the statement of activities, only the gain or loss on the disposal of capital assets is reported. However, in the governmental funds, the proceeds from the sale increase financial resources. Thus, the change in net position differs from the change in fund balance by the net book value of the assets disposed.	(5,985,380)
In the governmental funds, payments received on a long-term capital lease are reported as intergovernmental revenues. However, in the statement of activities, the capital lease receivable is recorded in the year it is created and principal payments serve to reduce the long-term receivable. This is the net effect of these differences in the current year.	4,965,000
Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds.	194,418
The issuance of long-term debt provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net position. This amount is the net effect of these differences in the treatment of long-term debt and related items.	(72,016,824)
Some expenses reported in the statement of activities do not require the use of current financial resources and, therefore, are not reported as expenditures in governmental funds.	<u>(3,775,674)</u>
Change in net position - governmental activities	<u>\$ (73,135,235)</u>

The accompanying notes are an integral part of these financial statements.

CITY OF DECATUR, GEORGIA
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2016

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the City of Decatur, Georgia (the “City”) have been prepared in conformity with accounting principles generally accepted in the United States of America (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The more significant of the City’s accounting policies are described below.

A. Reporting Entity

The City operates under a commission/manager form of government and provides the following services to its citizens: public safety, public works, parks and recreation, public improvements, and general and administrative services. Additionally, the City owns and contracts for management of a parking deck and convention center for the benefit of the downtown Decatur area.

The accompanying financial statements present the City and its component units, entities for which the City is considered to be financially accountable. Each discretely presented component unit is reported in a separate column in the government-wide financial statements to emphasize that it is legally separate from the City.

The Decatur Downtown Development Authority (the “DDA”) has been included as a discretely presented component unit in the accompanying financial statements. The City appoints all members of its board and has the ability to impose its will on the DDA by removing those board members and appointing, hiring, reassigning or dismissing those persons responsible for the day-to-day operations of the DDA. Financial information with regard to the DDA can be obtained from the DDA’s administrative offices at 509 North McDonough Street, Decatur, Georgia 30030. Separate financial statements for the Downtown Development Authority are not prepared.

The Decatur Tourism Board (the “DTB”) has been included as a discretely presented component unit in the accompanying financial statements. The Board does not have the power to levy taxes or issue bonded debt and a financial benefit or burden relationship exists as the City has assumed the obligation to provide financial support to the DTB in the form of hotel/motel occupancy taxes collected on lodgings in the City. Financial information with regard to the DTB can be obtained from the DTB’s administrative offices at 509 North McDonough Street, Decatur, Georgia 30030. Separate financial statements for the Decatur Tourism Board are not prepared.

The Urban Redevelopment Agency of the City of Decatur (the “URA”) has been included as a blended component unit in the accompanying financial statements. All members of the City Commission serve on the Commission for the URA. Although it is legally separate from the City, its sole purpose is to finance construction and acquisitions of the City. The debt and assets of the URA have been reported as a form of the City’s debt and assets and all debt service activity is reported as debt service activity of the City.

NOTES TO FINANCIAL STATEMENTS

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

B. Government-wide and Fund Financial Statements

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the non-fiduciary activities of the primary government and its component units. Government-wide financial statements do not provide information by fund, but distinguish between the City's governmental activities and business-type activities. Governmental activities, which are normally supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support. Likewise, the primary government is reported separately from discretely presented component units. The statement of net position will include non-current assets and non-current liabilities. In addition, the government-wide statement of activities reflects depreciation expense on the City's capital assets. As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements. However, any interfund services provided and used are not eliminated as this process would distort the direct costs and program revenues reported in the various functions.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment, and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not considered program revenues are reported instead as general revenues.

Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements.

The government-wide financial statements are reported using the economic resource measurement focus and the accrual basis of accounting, as are the proprietary fund and fiduciary fund financial statements. Agency funds have no measurement focus; however, they use the accrual basis of accounting to recognize assets and liabilities. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met. Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the City considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures are generally recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

NOTES TO FINANCIAL STATEMENTS

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

C. Measurement Focus, Basis of Accounting and Basis of Presentation

Property taxes, sales taxes, franchise taxes, licenses, intergovernmental grants, and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. All other revenue items are considered to be measurable and available only when cash is received by the City.

In accordance with GASB Statement No. 33, "Accounting and Financial Reporting for Non-exchange Transactions," the corresponding assets (receivables) in non-exchange transactions are recognized in the period in which the underlying exchange occurs, when an enforceable legal claim has arisen, when all eligibility requirements have been met, or when resources are received, depending on the revenue source.

In accordance with GASB Statement No. 34, major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements.

The City reports the following major governmental funds:

The **General Fund** is the City's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.

The **2013 URA Bonds Fund** accounts for the proceeds from the issuance of the Series 2013 revenue bonds and the expenditures of those funds for major capital projects.

The **URA Callaway Building Project Fund** accounts for the proceeds from the issuance of a note payable to acquire the Callaway Building and related real property which is held for resale.

The **Capital Improvement Fund** accounts for the receipt and expenditure of funds related to major capital projects throughout the City.

The **Debt Service Fund** accounts for the accumulation of resources and payment of general obligation bond principal and interest from governmental resources.

The City reports the following major proprietary funds:

The **Solid Waste Fund** accounts for the collection of fees for garbage collection, disposal and recycling programs and related expenses.

The **Stormwater Utility Fund** accounts for the collection of fees for upgrades to stormwater drains and related expenses.

NOTES TO FINANCIAL STATEMENTS

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

C. Measurement Focus, Basis of Accounting and Basis of Presentation (Continued)

The City also reports the following fund types:

The **Special Revenue funds** are used to account for specific revenues, such as confiscations/forfeitures, emergency telephone system charges, hotel/motel tax revenues and various grants and contributions, which are legally restricted or committed to expenditures for particular purposes.

The **Capital Projects funds** are used to account for the expenditures of proceeds from the 2007 General Obligation bonds as well as for receipts and expenditures of funds for cemetery projects throughout the City.

The **Pension Trust Fund** accounts for the accumulation of resources to be used for retirement annuity payments at appropriate amounts and times in the future. Resources are contributed by employees and the City at rates determined by actuarial computations.

Agency funds are accounted for on the accrual basis of accounting, and are used to account for funds that the City holds for others in an agency capacity, including municipal court bonds and property taxes.

In accounting and reporting for its proprietary operations, the City applies all GASB pronouncements. Proprietary funds distinguish *operating* revenues and expenses from *non-operating* items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the enterprise funds are charges for goods and services provided. Operating expenses of the enterprise funds include the cost of these goods and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

When both restricted and unrestricted resources are available for use, it is the City's policy to use restricted resources first, then unrestricted resources as they are needed.

D. Budgets

Annual appropriated budgets are adopted for all funds. The budgets for the proprietary funds are for management control purposes and are not required to be reported. Budgets are adopted on a modified accrual basis, which is consistent with generally accepted accounting principles for governmental funds. All appropriations lapse at fiscal year-end. Encumbrance accounting - under which purchase orders, contracts and other commitments for the expenditure of resources are recorded to reserve that portion of the applicable appropriation - is not employed by the City.

NOTES TO FINANCIAL STATEMENTS

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

E. Deposits and Investments

The City's cash and cash equivalents are considered to be cash on hand, demand deposits, and short-term investments with original maturities of three months or less from the date of acquisition.

The local government investment pool, "Georgia Fund 1," created by OCGA 36-83-8, is a stable asset value investment pool, which follows Standard and Poor's criteria for AAAf rated money market funds and is regulated by the Georgia Office of the State Treasurer. The pool is not registered with the SEC as an investment company. The pool's primary objectives are safety of capital, investment income, liquidity and diversification while maintaining principal (\$1 per share). The asset value is calculated weekly to ensure stability. The pool distributes earnings (net of management fees) on a monthly basis and determines participants' shares sold and redeemed based on \$1 per share. The pool also adjusts the value of its investments to fair market value as of year-end and the City's investment in Georgia Fund 1 is reported at fair value. The City considers amounts held in Georgia Fund 1 as cash equivalents for financial statement presentation.

The City's nonparticipating interest-earning investment contracts are recorded at cost. All remaining investments are recorded at fair value, which includes the real estate held for resale in the Callaway Building Project Fund. GASB Statement No. 72 defines fair value as "the price that would be received to sell an asset." The City, as discussed in Note 18, sold the Callaway Building to a developer on August 26, 2016 and the price paid by the developer to acquire the building from the City is considered to represent the fair value of the asset as of June 30, 2016.

Increases or decreases in the fair value of the City's investments during the year are recognized as a component of investment income.

F. Receivables and Payables

Activity between funds that is representative of lending/borrowing arrangements outstanding at the end of the fiscal year as well as all other outstanding balances between funds is reported as "due to/from other funds." Any residual balances outstanding between the governmental activities and business-type activities are reported in the government-wide financial statements as "internal balances."

Advances between funds, as reported in the fund financial statements, represent long-term borrowing arrangements with established repayment schedules, and are offset by a non-spendable fund balance account in applicable governmental funds to indicate that they are not available for appropriation and are not expendable available financial resources.

NOTES TO FINANCIAL STATEMENTS

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

G. Inventories

The costs of governmental fund type inventories (which are not significant to the City) are recorded as expenditures when purchased rather than when consumed (purchase method).

H. Prepaid Items

Payments made to vendors for services that will benefit periods beyond June 30, 2016, are recorded as prepaid items in both government-wide and fund financial statements.

I. Capital Assets

Capital assets, which include property, plant, equipment, and infrastructure assets (e.g., roads, bridges, sidewalks, and similar items), are reported in the applicable governmental or business-type activities column in the government-wide financial statements. Capital assets are defined by the City as assets with an initial, individual cost of more than \$5,000 and an estimated useful life in excess of two years. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated acquisition value. The City has reported infrastructure assets consistent with the retroactive reporting requirements of GASB Statement 34.

The cost of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized.

Capital assets of the primary government, as well as the component units, are depreciated using the straight line method over the following estimated useful lives:

<u>Assets</u>	<u>Years</u>
Machinery and equipment	3-20
Vehicles	5
Land improvements	15-20
Infrastructure	15-50
Buildings and improvements	30-50

NOTES TO FINANCIAL STATEMENTS

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

J. Deferred Outflows / Inflows of Resources

In addition to assets, the statement of net position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, *deferred outflows of resources*, represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense) until then. The City's deferred charge on refunding qualifies for reporting in this category. A deferred charge on refunding results from the difference in the carrying value of the refunded debt and its reacquisition price. This amount is deferred and amortized over the shorter of the life of the refunded debt or the refunding debt.

In addition to liabilities, the financial statements will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, *deferred inflows of resources*, represents an acquisition of net position that applies to future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. The City has several types of items that qualify for reporting in this category.

The statement of net position reports the *accumulated increase in the fair value of the hedging derivative* as a deferred inflow of resources. As the derivative qualifies as an effective hedge, the change in fair market value which occurs each fiscal year is deferred and thus the asset and deferred inflow are adjusted.

The statement of net position also reports the *deferred service concession arrangement receipts* as a deferred inflow of resources. This balance includes the effect of deferring the recognition of revenue from the present value of installment payments to be received by the Decatur Downtown Development Authority under the conference center facilities service concession arrangement. The balance of the deferred inflow of resources as of June 30, 2016 will be recognized as revenue on a straight-line basis and increase net position over the remaining life of the contract.

The City also reports as deferred inflows of resources items that arise from the revenue recognition of property taxes and intergovernmental revenues. The first item, *unavailable revenue*, is reported only in the governmental funds balance sheet. The governmental funds report unavailable revenues from property taxes and intergovernmental revenue as these amounts are deferred and will be recognized as an inflow of resources in the period in which the amounts become available. The second item, *unearned revenue*, which is reported in both the governmental funds balance sheet and the government-wide statement of net position, pertains to intergovernmental revenues received by the City before time requirements are met and thus will be recognized as inflows (revenue) in future periods once those requirements are met.

NOTES TO FINANCIAL STATEMENTS

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

J. Deferred Outflows / Inflows of Resources (Continued)

Finally, the City also has deferred outflows and inflows of resources related to the recording of changes in its net pension liability. Certain changes in the net pension liability are recognized as pension expense over time instead of all being recognized in the year of occurrence. Experience gains or losses result from periodic studies by the City's actuary which adjust the net pension liability for actual experience for certain trend information that was previously assumed, for example the assumed dates of retirement of plan members. These experience gains or losses are recorded as deferred outflows of resources or deferred inflows of resources and are amortized into pension expense over the expected remaining service lives of plan members. Changes in actuarial assumptions which adjust the net pension liability are also recorded as deferred outflows of resources or deferred inflows of resources and are amortized into pension expense over the expected remaining service lives of plan members. The difference between projected investment return on pension investments and actual return on those investments is also deferred and amortized against pension expense over a five year period.

K. Compensated Absences

It is the City's policy to permit employees to accumulate earned but unused vacation and sick pay benefits. There is no liability for non-vesting accumulated rights to receive sick pay benefits since the City does not have a policy to pay any amounts when employees separate from service with the City. All vacation pay is accrued when incurred in the government-wide and proprietary fund financial statements. A liability for these amounts is reported in the governmental funds only if they have matured, for example, as a result of employee resignations and retirements.

L. Long-Term Obligations

In the government-wide financial statements, and proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type statement of net position. Bond premiums and discounts are deferred and amortized over the term of the bonds using the effective interest method. Bonds payable are reported net of the applicable discount or premium. Bond issuance costs are reported as expenses in the periods in which they are incurred.

In the fund financial statements, governmental fund types report the face amount of debt issued and related premiums or discounts as other financing sources. Bond issuance costs are reported as debt service expenditures.

NOTES TO FINANCIAL STATEMENTS

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

M. Fund Equity

Fund equity at the governmental fund financial reporting level is classified as “fund balance.” Fund equity for all other reporting is classified as “net position.”

Fund Balance – Generally, fund balance represents the difference between the assets and liabilities and deferred inflows of resources under the current financial resources management focus of accounting. In the fund financial statements, governmental funds report fund balance classifications that comprise a hierarchy based primarily on the extent to which the City is bound to honor constraints on the specific purpose for which amounts in those funds can be spent.

Fund balances are classified as follows:

Nonspendable – Fund balances are reported as nonspendable when amounts cannot be spent because they are either (a) not in spendable form (i.e., items that are not expected to be converted to cash) or (b) legally or contractually required to be maintained intact.

Restricted – Fund balances are reported as restricted when there are limitations imposed on their use either through enabling legislation adopted by the City or through external restrictions imposed by creditors, grantors, laws or regulations of other governments.

Committed – Fund balances are reported as committed when they can be used only for specific purposes pursuant to constraints imposed by the City Commission. Approval of a resolution after a formal vote of the City Commission is required to establish a commitment of fund balance. Similarly, the City Commission may only modify or rescind the commitment by formal vote and adoption of a subsequent resolution.

Assigned – Fund balances are reported as assigned when amounts are constrained by the City’s intent to be used for specific purposes, but are neither restricted nor committed. Through the adoption of a resolution, the City Commission has expressly delegated to the City Manager the authority to assign fund balances for particular purposes.

Unassigned – Fund balances are reported as unassigned as the residual amount when the balances do not meet any of the above criterion. The City reports positive unassigned fund balance only in the general fund. The City intends to maintain an unassigned fund balance in the general fund between twenty and thirty percent of the operating budget or an amount equal to 3-4 months’ operating expenditures.

NOTES TO FINANCIAL STATEMENTS

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

M. Fund Equity (Continued)

Flow Assumptions – When both restricted and unrestricted amounts of fund balance are available for use for expenditures incurred, it is the City's policy to use restricted amounts first and then unrestricted amounts as they are needed. For unrestricted amounts of fund balance, it is the City's policy to use fund balance in the following order: (1) Committed, (2) Assigned, (3) Unassigned.

Net Position – Net position represents the difference between assets and deferred outflows of resources, and liabilities and deferred inflows of resources in reporting which utilizes the economic resources measurement focus. Net investment in capital assets consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowing used (i.e., the amount that the City has spent) for the acquisition, construction or improvement of those assets. Net position is reported as restricted using the same definition as used for restricted fund balance as described in the section above. All other net position is reported as unrestricted.

The City applies restricted resources first when an expense is incurred for purposes for which both restricted and unrestricted net position is available.

N. Pensions

The City of Decatur Employees' Retirement System uses a single fiduciary fund to maintain its financial records. The fiduciary fund is accounted for on a flow of economic resources measurement focus. Revenues are recognized when earned and expenses are recognized at the time they are incurred. Employer contributions are recognized when due and employee contributions are recognized when due as deductions from the employees' payroll. Benefit payments are recognized when due and payable in accordance with the terms of the Plan. Contribution refunds are recognized when due and payable in accordance with the terms of the Plan and City procedures for termination.

O. Management Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amount of assets, deferred outflows of resources, liabilities, and deferred inflows of resources and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amount of revenues and expenditures/expenses during the period. Actual results could differ from those estimates.

NOTES TO FINANCIAL STATEMENTS

NOTE 2. RECONCILIATION OF GOVERNMENT-WIDE FINANCIAL STATEMENTS AND FUND FINANCIAL STATEMENTS

A. Explanation of Certain Differences Between the Governmental Funds Balance Sheet and the Government-wide Statement of Net Position

The governmental fund balance sheet includes a reconciliation between *fund balance – total governmental funds* and *net position – governmental activities* as reported in the government-wide statement of net position. One element of that reconciliation explains that “receivables of governmental activities arising from capital leases and interest are not current financial resources and, therefore, are not reported in the governmental funds.” The details of this \$5,079,013 difference are as follows:

Capital lease receivable	\$ 4,965,000
Accrued interest receivable	114,013
Net adjustment to increase <i>fund balance - total governmental funds</i> to arrive at <i>net position - governmental activities</i>	\$ 5,079,013

Another element of that reconciliation explains that “long-term liabilities are not due and payable in the current period and therefore are not reported in the funds.” The details of this \$181,209,737 difference are as follows:

Capital leases payable	\$ (792,707)
Certificates of participation	(2,965,000)
Claims and judgments payable	(50,710)
Accrued interest payable	(2,502,508)
Net OPEB obligation	(14,697,726)
Notes payable	(3,692,233)
Bonds payable	(157,406,030)
Deferred charges from bond refunding	1,994,098
Compensated absences	(1,096,921)
Net adjustment to reduce <i>fund balance - total governmental funds</i> to arrive at <i>net position - governmental activities</i>	\$ (181,209,737)

NOTES TO FINANCIAL STATEMENTS

NOTE 2. RECONCILIATION OF GOVERNMENT-WIDE FINANCIAL STATEMENTS AND FUND FINANCIAL STATEMENTS (CONTINUED)

A. Explanation of Certain Differences Between the Governmental Funds Balance Sheet and the Government-wide Statement of Net Position (Continued)

Another element of that reconciliation explains that “the deferred outflows of resources, deferred inflows of resources, and the net pension liability related to the City’s pension plan are not expected to be liquidated with expendable financial resources and, therefore, are not reported in the funds.” The details of this \$4,254,597 difference are as follows:

Deferred outflows of resources - pension related items	\$ 5,216,345
Net pension liability	(9,470,942)
Net adjustment to decrease <i>net changes in fund balances - total governmental funds</i> to arrive at <i>changes in net position of governmental activities</i>	\$ (4,254,597)

B. Explanation of Certain Differences Between the Governmental Fund Statement of Revenues, Expenditures, and Changes in Fund Balances and the Government-wide Statement of Activities

The governmental fund statement of revenues, expenditures, and changes in fund balances includes a reconciliation between *net changes in fund balances – total governmental funds* and *changes in net position of governmental activities* as reported in the government-wide statement of activities. One element of that reconciliation explains that “Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense.” The details of this \$378,881 difference are as follows:

Capital outlay	\$ 2,743,622
Depreciation expense	(3,122,503)
Net adjustment to decrease <i>net changes in fund balances - total governmental funds</i> to arrive at <i>changes in net position of governmental activities</i>	\$ (378,881)

NOTES TO FINANCIAL STATEMENTS

NOTE 2. RECONCILIATION OF GOVERNMENT-WIDE FINANCIAL STATEMENTS AND FUND FINANCIAL STATEMENTS (Continued)

B. Explanation of Certain Differences Between the Governmental Fund Statement of Revenues, Expenditures, and Changes in Fund Balances and the Government-wide Statement of Activities (Continued)

Another element of that reconciliation explains that “The issuance of long-term debt provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net position.” The details of this \$72,016,824 difference are as follows:

Issuance of general obligation bonds	\$ (69,755,000)
Capital leases	(173,477)
Original issue premium	(6,224,013)
Principal retirements	3,869,824
Amortization of premiums	360,799
Amortization of deferred charges from refunding	<u>(94,957)</u>
Net adjustment to decrease <i>net changes in fund balances - total governmental funds</i> to arrive at <i>changes in net position of governmental activities</i>	<u><u>\$ (72,016,824)</u></u>

Another element of that reconciliation explains that “Some expenses reported in the statement of activities do not require the use of current financial resources and, therefore, are not reported as expenditures in governmental funds.” The details of this \$3,775,674 difference are as follows:

Compensated absences	\$ 85,794
Claims and judgments	40,758
Net other postemployment benefits (OPEB) obligation	(2,103,606)
Accrued interest	(1,147,013)
Net pension liability and related deferred outflows and deferred inflows of resources	<u>(651,607)</u>
Net adjustment to decrease <i>net changes in fund balances - total governmental funds</i> to arrive at <i>changes in net position of governmental activities</i>	<u><u>\$ (3,775,674)</u></u>

NOTES TO FINANCIAL STATEMENTS

NOTE 3. LEGAL COMPLIANCE – BUDGETS

The City of Decatur, Georgia employs the following procedures in establishing its annual budget:

1. In accordance with the Fiscal Control Ordinance of the City, the City Manager submits a proposed operating budget to the City Commissioners. The operating budget includes proposed expenditures and the means for financing them.
2. Prior to any action by the Commissioners, the City publishes the proposed budget in the official legal organ, other community newspapers and makes copies available to the residents of the City.
3. Public meetings are held to obtain taxpayer comments.
4. The budget is then legally enacted through passage of a resolution by the City Commission.
5. Budgetary control is exercised at the department level. The City Manager is authorized to transfer budget amounts within a department; however, any revisions that alter the total expenditures of a department require a budget amendment by the City Commissioners. Budget amounts shown in these financial statements reflect amendments approved by the City Commissioners. Such amendments resulted in no supplemental appropriations.

NOTES TO FINANCIAL STATEMENTS

NOTE 4. DEPOSITS AND INVESTMENTS

Primary Government

The table below summarizes the City's cash and cash equivalents and investments by type as of June 30, 2016:

Investment	Maturities	Fair Value
Deposits with Financial Institutions	---	\$ 24,983,532
Guaranteed Investment Contract	June 1, 2028	227,058
Real estate held for resale	---	6,335,310
Georgia Fund 1 - cash equivalents	42 days	455,700
Total		\$ 32,001,600
As reported in the Statement of Net Position:		
Cash and cash equivalents		\$ 21,932,656
Restricted:		
Cash and cash equivalents		1,298,970
Investments		227,058
Investment in real estate held for resale		6,335,310
Cash and cash equivalents - Agency Funds		2,207,606
Total		\$ 32,001,600

Credit risk: State statutes authorize the City to invest in obligations of the State of Georgia or other states; obligations issued by the U.S. government; obligations fully insured or guaranteed by the U.S. government or by a government agency of the United States; obligations of any corporation of the U.S. government; prime bankers' acceptances; the local government investment pool established by state law; repurchase agreements; and obligations of other political subdivisions of the State of Georgia.

Fair Value Measurements: The City categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; and Level 3 are significant unobservable inputs.

NOTES TO FINANCIAL STATEMENTS

NOTE 4. DEPOSITS AND INVESTMENTS (Continued)

Fair Value Measurements (continued): The City has the following recurring fair value measurements as of June 30, 2016:

<u>Investment</u>	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Fair Value</u>
Real estate held for resale	\$ -	\$ 6,335,310	\$ -	\$ 6,335,310
Total investments measured at fair value	<u>\$ -</u>	<u>\$ 6,335,310</u>	<u>\$ -</u>	<u>\$ 6,335,310</u>
Investments not subject to level disclosure:				
Georgia Fund 1				455,700
Investments carried at cost:				
Guaranteed Investment Contract				<u>227,058</u>
Total investments				<u>\$ 7,018,068</u>
Fair value hedging derivative:				
Interest rate swap agreement	<u>\$ -</u>	<u>\$ 490,928</u>	<u>\$ -</u>	<u>\$ 490,928</u>

The fair value of the real estate held for resale classified as Level 2 of the fair value hierarchy is valued using the sales price received for the asset when sold by the City in August 2016 which is more fully discussed in Note 18.

The Georgia Fund 1 is an investment pool which does not meet the criteria of GASB Statement No. 79 and is thus valued at fair value in accordance with GASB Statement No. 31. As a result, the City does not disclose its investment in the Georgia Fund 1 within the fair value hierarchy.

The Guaranteed Investment Contract is a nonparticipating interest-earning investment contact and, accordingly, is recorded at cost.

The interest rate swap agreement is more fully described in Note 7. The fair value of the interest rate swap agreement classified as Level 2 of the fair value hierarchy is valued using an option-adjusted discounted cash flow model.

Custodial Credit Risk – Deposits: Custodial credit risk for deposits is the risk that, in the event of the failure of a depository financial institution, a government will not be able to recover deposits or will not be able to recover collateral securities that are in the possession of an outside party. State statutes, and City policy, require all deposits and investments (other than federal or state government instruments) to be collateralized by depository insurance, obligations of the U.S. government, or bonds of public authorities, counties, or municipalities. As of June 30, 2016, the City did not have any deposits that were uninsured or under collateralized, as defined by State statutes.

NOTES TO FINANCIAL STATEMENTS

NOTE 4. DEPOSITS AND INVESTMENTS (Continued)

Interest rate risk: With regard to its investments (aside from those held in the Pension Trust Fund), the City does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

Pension Trust Fund

The Pension Trust Fund's policy in regard to investments, including the allocation of invested assets, is established and may be amended by the Board of Trustees of the Employees' Retirement System of the City of Decatur. The Pension Trust Fund is authorized to invest in cash and cash equivalents (including money market funds and stable value funds), fixed income securities (government and corporate entity obligations, asset-backed securities, commercial paper or similar fixed income contracts), and domestic equities.

As of June 30, 2016, the Pension Trust Fund had \$36,303,291 invested in the following types of investments as categorized by credit risk (ratings by Moody's):

Investment	Fair Value	Credit Quality Rating (Moody's)
Corporate obligations	\$ 187,922	Aaa
Corporate obligations	235,578	Aa1
Corporate obligations	705,346	Aa2
Corporate obligations	757,290	Aa3
Corporate obligations	1,045,260	A1
Corporate obligations	656,991	A2
Corporate obligations	80,506	A3
Corporate obligations	143,873	Baa1
Corporate obligations	47,774	Baa3
Corporate obligations	453,561	Not rated
U.S. government and agency bonds	7,950,866	Aaa
U.S. government and agency bonds	6,524,056	Not rated
Mutual funds invested in equities	17,514,268	Not rated
Total	\$ 36,303,291	

Credit risk: The Pension Trust Fund's investment policy adopts the following asset allocation mix to achieve the lowest level of risk while obtaining the average annual return benchmark (8.25%): Cash and Cash Equivalents targeted at 1% but with an acceptable range between 0.25% and 2%; Fixed Income targeted at 49% but with an acceptable range between 40% and 50%; Domestic Equities targeted at 50% but with an acceptable range between 50% and 60% (at historical cost); and Foreign Equities targeted at 0% but with an acceptable range between 0% and 5% (at historical cost).

NOTES TO FINANCIAL STATEMENTS

NOTE 4. DEPOSITS AND INVESTMENTS (Continued)

Pension Trust Fund (Continued)

Concentration: On June 30, 2016, the Pension Trust Fund did not have any debt or equity investments in any one organization, other than those issued by the U.S. Government, which represented greater than 5% of plan fiduciary net position.

Interest rate risk: The Pension Trust Funds holds assets to collateralize the pension promises. The projected benefits extend out over 50+ years. The investment policy considers the duration of the assets and liabilities when managing interest rate risk in the bond portfolio. However, no formal policy to address potential fair value losses from rising interest rates has been adopted by the Board of Trustees of the Employees' Retirement System of the City of Decatur.

As of June 30, 2016, the Pension Trust Fund had \$36,303,291 invested in the following investments as categorized by interest rate risk:

<u>Investment</u>	<u>Fair Value</u>	<u>Weighted Average Maturity (Years)</u>
Corporate obligations	\$ 4,314,101	4.66
U.S. government and agency bonds	14,474,922	4.67
Mutual funds invested in equities	17,514,268	---
Total	<u>\$ 36,303,291</u>	

Rate of Return: For the year ended June 30, 2016, the annual money-weighted rate of return on Pension Trust Fund investments, net of investment expenses, was 0.05%. The money-weighted rate of return expresses investment performance, net of investment expense, adjusted for the changing amounts actually invested.

Custodial Credit Risk – Deposits: Custodial credit risk for deposits is the risk that, in the event of the failure of a depository financial institution, a government will not be able to recover deposits or will not be able to recover collateral securities that are in the possession of an outside party. As of June 30, 2016, the Pension Trust Fund did not have any deposits with financial institutions which were uninsured or under collateralized, as defined by State statutes.

NOTES TO FINANCIAL STATEMENTS

NOTE 4. DEPOSITS AND INVESTMENTS (Continued)

Pension Trust Fund (Continued)

Fair Value Measurements: The Pension Trust Fund has the following recurring fair value measurements as of June 30, 2016:

<u>Investment</u>	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Fair Value</u>
Corporate obligations	\$ 3,651,900	\$ 662,201	\$ -	\$ 4,314,101
U.S. government and agency bonds	7,950,866	6,524,056	-	14,474,922
Mutual funds invested in equities	17,514,268	-	-	17,514,268
Total investments	<u>\$ 29,117,034</u>	<u>\$ 7,186,257</u>	<u>\$ -</u>	<u>\$ 36,303,291</u>

Debt and equity securities classified in Level 1 of the fair value hierarchy are valued using prices quoted in active markets for those securities. Debt securities classified in Level 2 of the fair value hierarchy are valued using a present value of expected future cash flows model whereby fair value is determined using each security's coupon, yield, and expected maturity/call date.

NOTE 5. RECEIVABLES

Property taxes are levied on property values assessed as of January 1. The tax levy is divided into two billings. The first billing is mailed April 1 which is considered the levy date, and the second billing is mailed no later than October 20. The billings are considered due upon receipt by the taxpayer; however, the actual due dates are June 1 and December 20. After these dates, the bill becomes delinquent and penalties and interest may be assessed by the City. Property taxes are recorded as receivables and deferred inflows of resources (unavailable revenues) when assessed. Revenues are recognized when available.

Enterprise fund solid waste fees and stormwater fees are billed annually on April 1 for the calendar year and are due June 1.

NOTES TO FINANCIAL STATEMENTS

NOTE 5. RECEIVABLES (Continued)

Receivables at June 30, 2016, for the City's individual major funds and nonmajor funds in the aggregate, including the applicable allowances for uncollectible accounts are as follows:

	<u>General</u>	<u>Capital Improvement</u>	<u>Debt Service</u>	<u>Nonmajor Funds</u>	<u>Governmental Funds Total</u>
Receivables:					
Taxes	\$ 422,027	\$ 71,742	\$ 129,694	\$ 52,480	\$ 675,943
Other	429,655	5,053	-	592,448	1,027,156
Less allowance for uncollectible	(24,695)	(1,653)	(2,945)	-	(29,293)
Net total receivable	<u>\$ 826,987</u>	<u>\$ 75,142</u>	<u>\$ 126,749</u>	<u>\$ 644,928</u>	<u>\$ 1,673,806</u>

	<u>Stormwater</u>	<u>Solid Waste</u>	<u>Proprietary Funds Total</u>
Receivables:			
Accounts	\$ 64,684	\$ 114,513	\$ 179,197
Less allowance for uncollectible	(39,622)	(48,615)	(88,237)
Net total receivable	<u>\$ 25,062</u>	<u>\$ 65,898</u>	<u>\$ 90,960</u>

Capital Lease Receivable – Governmental Activities: The City has entered into a capital lease transaction as the lessor with the City's School District. The agreement executed between the City and the School District called for the City to construct a central administration facility for the School District who, in turn, would be responsible for paying to the City amounts equal to the debt service requirements on the URA Revenue Bonds, Series 2013B.

Future payments to be received by the City under the capital lease are as follows:

Fiscal Year Ending June 30,	<u>Governmental Activities</u>
2017	\$ 403,725
2018	402,725
2019	401,575
2020	403,175
2021	406,575
2022-2026	2,014,175
2027-2031	2,019,600
2032-2034	1,212,525
Total minimum lease payments	<u>7,264,075</u>
Less amount representing interest	2,299,075
Present value of future minimum lease payments	<u>\$ 4,965,000</u>

NOTES TO FINANCIAL STATEMENTS

NOTE 5. RECEIVABLES (Continued)

Lease Receivable – Decatur Downtown Development Authority (DDDA): In May of 2011 the DDDA entered into an agreement with a third party for the operation of the City's Conference Center that qualifies for reporting as a service concession arrangement under GASB Statement No. 60. Under the terms of the agreement, the third-party operator was required to make monthly rental payments until construction of the leasehold improvements was completed and subsequently the operator would receive rental forgiveness in the amount of the leasehold improvements made. As of June 30, 2016, the balance of the lease receivable is \$868,773 and consists of the total rent to be received under the terms of the agreement, reduced for the dollar amount of leasehold improvements made. The deferred inflows of resources related to this service concession arrangement are being recognized as revenue on a straight-line basis. Upon the termination of the lease (May 1, 2035), the Conference Center will be returned to the City.

THE REMAINDER OF THIS PAGE HAS BEEN LEFT BLANK INTENTIONALLY

NOTES TO FINANCIAL STATEMENTS

NOTE 6. CAPITAL ASSETS

Primary Government

Capital asset activity for the fiscal year ended June 30, 2016, is as follows:

	<u>Beginning Balance</u>	<u>Increases</u>	<u>Decreases</u>	<u>Transfers</u>	<u>Ending Balance</u>
Governmental activities:					
Capital assets, not being depreciated:					
Land	\$ 3,863,026	\$ 338,059	\$ -	\$ -	\$ 4,201,085
Construction in progress	3,973,996	1,818,259	(104,831)	(5,397,549)	289,875
Total	<u>7,837,022</u>	<u>2,156,318</u>	<u>(104,831)</u>	<u>(5,397,549)</u>	<u>4,490,960</u>
Capital assets, being depreciated:

Long-term liabilities	<u>\$ 111,029,402</u>	<u>\$ 86,834,785</u>	<u>\$ (7,691,918)</u>	<u>\$ 190,172,269</u>	<u>\$ 10,083,144</u>

	<u>Beginning Balance</u>	<u>Additions</u>	<u>Reductions</u>	<u>Ending Balance</u>	<u>Due Within One Year</u>
Business-type activities:					
Net OPEB obligation	\$ 999,838	\$ 170,291	\$ (38,322)	\$ 1,131,807	\$ -
Net pension liability	388,775	646,803	(173,384)	862,194	-
Compensated absences	106,837	60,521	(67,219)	100,139	87,117
Business-type activity					
Long-term liabilities	<u>\$ 1,495,450</u>	<u>\$ 877,615</u>	<u>\$ (278,925)</u>	<u>\$ 2,094,140</u>	<u>\$ 87,117</u>

For governmental funds, compensated absences, the net pension liability, OPEB obligations, and claims and judgments are liquidated by the General Fund. For business-type activities, compensated absences, the net pension liability, and OPEB obligations are liquidated by the Stormwater Utility Fund and the Solid Waste Fund.

NOTES TO FINANCIAL STATEMENTS

NOTE 7. LONG-TERM DEBT (Continued)

Capital Leases – Equipment. The City has entered into lease agreements as lessee for financing the acquisition of equipment (including communication equipment) and improvements used in general governmental activities. The lease agreements qualify as capital leases for accounting purposes as either the titles transfer at the end of the lease terms or the leases include bargain purchase options and, therefore, have been recorded at the present values of the future minimum lease payments as of the date of their inception. Lease payments are due in annual installments.

The original cost of the City's assets under capital lease arrangements at June 30, 2016 is \$1,789,001 and there has been \$614,458 of accumulated depreciation as of year-end. Annual amortization of leased assets is included in depreciation expense.

The City's total capital lease debt service requirements to maturity are as follows:

	Governmental Activities
Fiscal Year Ending June 30,	
2017	\$ 384,966
2018	374,306
2019	61,271
Total minimum lease payments	820,543
Less amount representing interest	27,836
Present value of future minimum lease payments	\$ 792,707

Notes Payable. In December 2012, the City issued \$5,415,000 in general obligation sales tax notes, with a premium of \$270,732 and principal and interest payments beginning May 1, 2013 through November 1, 2017 at an interest rate of 1.00%. The notes will be paid back by the City of Decatur Board of Education (BOE) with special purpose local option sales tax (SPLOST) revenues and thus the City has a note receivable from the BOE equal to the outstanding balance of the sales tax notes. The proceeds from the notes will be used for the cost of acquiring, constructing, and equipping certain capital projects for the City of Decatur Board of Education, as well as the issuance costs. Debt service requirements to maturity on the notes are as follows:

	Principal	Interest	Total
Fiscal Year Ending June 30,			
2017	\$ 1,805,000	\$ 54,850	\$ 1,859,850
2018	1,840,000	18,400	1,858,400
Total	\$ 3,645,000	\$ 73,250	\$ 3,718,250

NOTES TO FINANCIAL STATEMENTS

NOTE 7. LONG-TERM DEBT (Continued)

Certificates of Participation. In June 1998, the City entered into a lease pool agreement with the Georgia Municipal Association (the "Association"). The funding of the lease pool was provided by the issuance of \$150,126,000 Certificates of Participation by the Association. The Association passed the net proceeds through to the participating municipalities with the City's participation totaling \$1,320,000. The lease pool agreement with the Association provides that the City owns their portion of the assets invested by the pool and is responsible for the payment of their portion of the principal and interest of the Certificates of Participation. The principal is due in a lump sum payment on June 1, 2028. Interest is payable at a rate of 4.75% each year. The City draws from the investment to lease equipment from the Association. The lease pool agreement requires the City to make lease payments back into its investment account to fund the principal and interest requirements of the 1998 GMA Certificates of Participation.

As part of the issuance of the certificates of participation, the City entered into an interest rate swap agreement. Under the Swap Agreement, the City is required to pay (1) a semiannual (and beginning July 1, 2003, a monthly) floating rate of interest based on the Securities Industry and Financial Markets Association (SIFMA) Municipal Swap Index (plus a 31 basis points spread) to, or on behalf of, the Swap Counterparty (the "Swap Payment"); and the Swap Counterparty will pay to, or on behalf of, the City a semi-annual payment based on a rate equal to the fixed rate on the certificates of participation (4.75%) times a notional amount specified in the Swap Agreement, but generally equal to the outstanding unpaid principal portion of such Contract, less the amount originally deposited in the Reserve Fund relating to the Contract, and (ii) a one-time Swap Premium to be paid on the effective date of the Swap Agreement.

The semiannual payments from the Swap Counterparty with respect to the City are structured, and expected, to be sufficient to make all interest payments due under the Contract, and related distributions of interest on the Certificates. Monthly interest payments between the City, the holders of the Certificates of Participation, and the Swap Counterparty can be made in net settlement form as part of this agreement. Under the Swap Agreement, the City's obligation to pay floating payments to the Swap Counterparty in any calendar year may not exceed an amount equal to the SIFMA Municipal Swap Index plus 5% to be determined on the first business day of December in the preceding year. This agreement matures on June 1, 2028, at the same time of the certificates of participation. This derivative qualifies as a fair market hedge.

NOTES TO FINANCIAL STATEMENTS

NOTE 7. LONG-TERM DEBT (Continued)

Certificates of Participation (continued). In the unlikely event that the Swap Counterparty becomes insolvent, or fails to make payments as specified in the Swap Agreement, the City would be exposed to credit risk in the amount of the Swap's fair value. To minimize this risk, the City executed this agreement with counterparties of appropriate credit strength, with the counterparty being rated Aa3 by Moody's. At June 30, 2016, the floating rate being paid by the City is 0.72% and the market value of this agreement is \$490,928, an increase of \$125,868 from the market value at the end of the previous fiscal year. The market value of the hedge was determined using settlement prices at the end of the day on June 30, 2016 based on the derivative contract and it is reported as a non-current asset in the statement of net position. As this derivative is an effective hedge, qualifying for hedge accounting, the inflow from the hedge (any change in fair value from inception until fiscal year end) is deferred and reported as a deferred inflow of resources in the statement of net position.

In July 2005, the City issued certificates of participation, Series 2005, in the principal amount of \$2,810,000 with principal and interest payments beginning January 1, 2006 through January 1, 2026 at an interest rate of 3.91%. Proceeds were used to acquire, construct, install and equip certain renovations and additions to its City Hall. In February 2015, the City negotiated an interest rate reduction from 3.91% to 2.60%. This rate reduction did not change the outstanding balance of the certificates of participation or the future maturities with regard to principal payments.

The City's total certificates of participation debt service requirements to maturity are as follows:

	<u>Principal</u>	<u>Interest</u>	<u>Total</u>
Fiscal Year Ending June 30,			
2017	\$ 135,000	\$ 105,470	\$ 240,470
2018	145,000	101,960	246,960
2019	150,000	98,190	248,190
2020	155,000	94,290	249,290
2021	160,000	90,260	250,260
2022-2026	900,000	385,520	1,285,520
2027-2028	1,320,000	125,400	1,445,400
Total	<u>\$ 2,965,000</u>	<u>\$ 1,001,090</u>	<u>\$ 3,966,090</u>

General Obligation Bonds. In January 2007 the City issued \$33,245,000 of Various Purpose Series 2007 General Obligation Bonds. The proceeds from the bonds will be used to pay for the costs of acquiring, constructing, equipping and renovating certain transportation projects, parks and recreation projects, public safety projects, public works projects and projects for the City Schools of Decatur as well as the issuance costs. In April 2015, the City issued \$29,895,000 of City of Decatur 2015 Obligation Refunding Bonds. The proceeds from the bonds were used to refund \$29,345,000 of the Series 2007 Bonds and to pay the costs of issuance. The bonds bear interest at rates ranging from 2% – 3.25% and mature on January 1, 2037. General obligation bonds are direct obligations and pledge the full faith and credit of the government.

NOTES TO FINANCIAL STATEMENTS

NOTE 7. LONG-TERM DEBT (Continued)

General Obligation Bonds (continued). The refunding transaction undertaken by the City in April 2015 resulted in aggregate debt service savings of \$3,415,064 and an economic gain (net present value of the aggregate debt service savings) of \$2,665,325.

As part of the refunding mentioned above, the City defeased certain outstanding general obligation bonds by placing the proceeds of the new bonds in an irrevocable trust to provide for future debt service payments on the old bonds. Accordingly, the trust account assets and the liability for the defeased bonds are not included in the City's financial statements. As of June 30, 2016, the outstanding amount of General Obligation Bonds, Series 2007 considered defeased is \$29,345,000.

In February 2016 the City issued General Obligation Bonds (City Schools of Decatur Projects), Series 2016 in the amount of \$69,755,000. The proceeds from the bonds, combined with an original issue premium in the amount of \$6,224,013, were used to disburse \$75,000,000 to the City of Decatur Board of Education to be used for various capital projects. This \$75,000,000 payment along with the costs of issuing the bonds (\$979,013) are shown as a special item on the Statement Activities.

The bonds are payable from the levy of taxes on all property in the City subject to general obligation school bond taxation. Interest rates range from 3% to 5% and payments are due semi-annually on February 1 and August 1, beginning on August 1, 2016. The bonds mature August 1, 2042.

Revenue Bonds. In December 2010 the Urban Redevelopment Agency of the City of Decatur (URA) issued Series 2010A Bonds and a Series 2010B Bond in the amounts of \$12,760,000 and \$1,000,000, respectively. The proceeds from the bonds were used to pay for the costs of acquiring, constructing, equipping, and renovating of a fire station, a public works facility, and a recreation center as well as the issuance costs. The bonds are special limited obligations of the URA, payable solely from and secured by pledged revenues under the contract by which the City is required to make installment payments to the URA in amounts sufficient to pay the principal and interest of the bonds. Interest rates range from 2.520% to 5.240% and payments are due semi-annually on July 1 and January 1, beginning July 1, 2011. The bonds mature January 1, 2038.

In May 2013 the Urban Redevelopment Agency of the City of Decatur (URA) issued Series 2013A and Series 2013B Revenue Bonds in the amounts of \$23,930,000 and \$5,360,000, respectively. The proceeds from the bonds will be used to pay for the costs related to the Beacon Center redevelopment project as well as the issuance costs. The bonds are special limited obligations of the URA, payable solely from and secured by pledged revenues under the contract by which the City is required to make installment payments to the URA in amounts sufficient to pay the principal and interest of the bonds. Interest rates range from 2.0% to 5.0% and payments are due semi-annually on July 1 and January 1, beginning July 1, 2013. The bonds mature January 1, 2044.

NOTES TO FINANCIAL STATEMENTS

NOTE 7. LONG-TERM DEBT (Continued)

In October 2013 the Urban Redevelopment Agency of the City of Decatur (URA) issued a taxable revenue bond (Series 2013C) in the amount of \$5,120,000 for the purchase of property from DeKalb County, Georgia for the purpose of redevelopment. Through a competitive bid process, a developer was selected to purchase and redevelop the site upon the County's departure from the building. The lease payments from the tenant will cover the interest payments until the building is sold to the developer. The purchase price from the selected developer is expected to be sufficient to pay the principal amount of the bond in full. Interest will accrue at 1.57% and will be paid semiannually on May 1 and November 1 until the bond matures on November 1, 2016.

The City's total debt service requirements to maturity on all of its outstanding bond issues are as follows:

Fiscal Year Ending June 30,	<u>Principal</u>	<u>Interest</u>	<u>Total</u>
2017	\$ 6,822,622	\$ 5,554,162	\$ 12,376,784
2018	1,893,980	5,617,537	7,511,517
2019	3,130,418	5,539,585	8,670,003
2020	3,346,943	5,419,432	8,766,375
2021	3,573,560	5,290,313	8,863,873
2022-2026	21,905,652	23,920,952	45,826,604
2027-2031	29,128,371	17,925,804	47,054,175
2032-2036	35,520,612	11,063,072	46,583,684
2037-2041	28,357,551	4,726,122	33,083,673

Transfers are used to (1) move unrestricted revenues collected in various funds to finance various programs of the City accounted for in the General Fund in accordance with budgetary authorizations, (2) move cash to cover operations to the nonmajor governmental funds, (3) move Hotel/Motel taxes between funds for expending in accordance with State law, and (4) to provide funding to the 2010 URA Bonds Fund, the 2013 URA Bonds Fund, and the Capital Improvement Fund for construction and other capital asset acquisition and project costs paid.

NOTES TO FINANCIAL STATEMENTS

NOTE 9. PENSION PLANS

Plan Administration

All of the City's full-time regular employees are covered by the City's single-employer defined benefit pension plan (the "Plan") which is administered by the Decatur Employees' Retirement System. The Plan was established in 1947 by the Decatur City Commission. The Board of Trustees of the Plan consists of seven members (the City Manager, the City Clerk, one City Commissioner appointed by the City Commission, one Participant who is either a Firefighter or a Police Officer, one Participant who is a General Employee, one private citizen of the City appointed by the other members of the Board and one private citizen appointed by the City Commission) and has the authority to establish and amend the Plan.

The Plan is contributory in nature with contributions coming from both the City and its covered employees. All eligible employees become participants in the Plan upon employment, while elected officials are not covered. Employees become fully vested after 10 years of service. The Plan does not issue a separate financial statement.

Plan Membership

As of July 1, 2016, the most recent actuarial valuation date, the plan membership included the following categories of participants:

Retirees and beneficiaries receiving benefits	95
Terminated vested participants not yet receiving benefits	8
Active participants	201
	304

Benefits

The Plan provides retirement, disability, and death benefits. Retirement benefits for general plan members are calculated as 1 percent of the member's average basic compensation plus 1.65% of average excess compensation times years of credited service. Retirement benefits for public safety employees are calculated as average compensation times credited service up to thirty (30) years times the following percentages:

Years of Benefit Service	Percent
10 - 14	2.00%
15 - 19	2.25%
20 - 24	2.50%
25 - 29	2.75%
30	3.00%

NOTES TO FINANCIAL STATEMENTS

NOTE 9. PENSION PLANS (Continued)

Benefits (Continued)

General plan members with 10 years of continuous service are eligible to retire at age 65. Public safety plan members with 10 years of continuous service are eligible to retire at age 60. General plan members may retire at age 60 after 15 years of service (or at any age as long as age plus service equals 80). Public safety plan members may retire at age 55 after 15 years of service (or at any age as long as age plus service equals 75). All plan members are eligible for non-duty disability benefits at the date determined to be permanently disabled provided he or she is at least age 50 and has completed 10 years of continuous service. For duty-related disability benefits, all members are eligible upon the date determined to be permanently disabled. Disability retirement benefits are determined in the same manner as retirement benefits but are payable immediately without an actuarial reduction.

A monthly death benefit is payable to a spouse of a married member should he or she die either (i) while employed but eligible for early retirement or (ii) after termination of employment on or after eligibility for early retirement, provided he or she has deferred commencement of benefits and has left all member contributions in the system.

If a member terminates employment prior to completing ten years of continuous service, he or she shall be entitled to a refund of his or her accumulated contributions with interest.

Employee Contributions

The authority to establish and amend contribution requirements rests with the Board of Trustees. Currently, Plan members are required to contribute to the Plan in the following manner:

Public Safety Employees	14% of compensation
General Employees	4% of compensation up to \$2,000 plus 8% of compensation in excess of \$2,000

Plan members who were active employees on July 1, 1997, and elected not to have the Unreduced Early Retirement Option are required to contribute to the Plan in the following manner:

Public Safety Employees	9% of compensation
General Employees	2% of compensation up to \$2,000 plus 6% of compensation in excess of \$2,000

Employee contributions are made on a pre-tax basis as permitted under Section 414(h) of the Internal Revenue Code. Public Safety employees consist of firefighters and police officers.

NOTES TO FINANCIAL STATEMENTS

NOTE 9. PENSION PLANS (Continued)

City Contributions

The City contribution is determined by the actuary as necessary to keep the Plan in compliance with the funding requirements of the State of Georgia. The actuarially determined rate is the estimated amount necessary to finance the costs of benefits earned by plan members during the year, with an additional amount to finance any unfunded accrued liability. For the year ended June 30, 2016, the City's contribution rate was 8.64% of covered payroll.

Net Pension Liability of the City

The City's net pension liability was measured as of June 30, 2016, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date.

Actuarial assumptions. The total pension liability in the June 30, 2016 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation		2.5%
Salary increases	2.5% for inflation plus merit increases of 0.5 to 3.5%	
Investment rate of return	7.0%, including inflation, net of investment expense	

Mortality rates were based upon the RP-2000 Healthy Annuitant Mortality Table projected to 2010 and the RP-2000 Mortality Table for Disabled Lives projected to 2010.

The actuarial assumptions used in the June 30, 2016 valuation were based on the results of the most recent experience study which was completed in August 2015 taking into account 7 years of data experience.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These expected future real rates of return are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of arithmetic real rates of return for each major asset class included in the pension plan's target asset allocation as of June 30, 2016 are: Domestic fixed income equities securities – 1.7% and Domestic equities – 7.3%.

NOTES TO FINANCIAL STATEMENTS

NOTE 9. PENSION PLANS (Continued)

Net Pension Liability of the City (Continued)

Discount rate. The discount rate used to measure the total pension liability was 7.00%. The projection of cash flows used to determine the discount rate assumed that plan member contributions will be made at the current contribution rate and that City contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Changes in the Net Pension Liability of the City. The changes in the components of the net pension liability of the City for the fiscal year ended June 30, 2016 were as follows:

	Total Pension Liability	Plan Fiduciary Net Position	Net Pension Liability
	(a)	(b)	(a) - (b)
Balances at 6/30/15	\$ 42,414,334	\$ 37,798,563	\$ 4,615,771
Changes for the year:			
Service cost	938,166	-	938,166
Interest	3,164,496	-	3,164,496
Differences between expected and actual experience	849,742	-	849,742
Changes in actuarial assumptions	2,744,933	-	2,744,933
Contributions—employer	-	941,003	(941,003)
Contributions—employee	-	1,006,352	(1,006,352)
Net investment income	-	87,025	(87,025)
Benefit payments, including refunds of employee contributions	(2,318,429)	(2,318,429)	-
Administrative expense	-	(54,408)	54,408
Net changes	5,378,908	(338,457)	5,717,365
Balances at 6/30/16	\$ 47,793,242	\$ 37,460,106	\$ 10,333,136

The required schedule of changes in the City's net pension liability and related ratios immediately following the notes to the financial statements presents multiyear trend information about whether the value of plan assets is increasing or decreasing over time relative to the total pension liability.

NOTES TO FINANCIAL STATEMENTS

NOTE 9. PENSION PLANS (Continued)

Net Pension Liability of the City (Continued)

Sensitivity of the net pension liability to changes in the discount rate. The following table presents the net pension liability of the City, calculated using the discount rate of 7.00%, as well as what the City's net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.00%) or 1-percentage-point higher (8.00%) than the current rate:

1% Decrease (6.00%)	Current Discount Rate (7.00%)	1% Increase (8.00%)
\$ 15,824,372	\$ 10,333,136	\$ 5,407,800

Actuarial valuations involve estimates of the value of reported amounts and assumptions about the probability of events far into the future, and actuarially determined amounts are subject to continual revision as results are compared to past expectations and new estimates are made about the future. Actuarial calculations reflect a long-term perspective. Calculations are based on the substantive plan in effect as of June 30, 2016 and the current sharing pattern of costs between employer and employee.

Pension Expense and Deferred Outflows of Resources and Deferred Inflows of Resources

For the fiscal year ended June 30, 2016, the City recognized pension expense of \$1,639,565. At June 30, 2016, the City reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources
Differences between expected and actual experience	\$ 698,896
Differences resulting from changes in actuarial assumptions	2,287,444
Net difference between projected and actual earnings on pension plan investments	2,704,879
Total	\$ 5,691,219

NOTES TO FINANCIAL STATEMENTS

NOTE 9. PENSION PLANS (Continued)

Pension Expense and Deferred Outflows of Resources and Deferred Inflows of Resources (Continued)

Amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year ending June 30:

2017	\$	1,316,767
2018		1,316,767
2019		1,316,767
2020		1,143,653
2021		597,265
Total	\$	<u>5,691,219</u>

THE REMAINDER OF THIS PAGE HAS BEEN LEFT BLANK INTENTIONALLY

NOTES TO FINANCIAL STATEMENTS

NOTE 10. OTHER POSTEMPLOYMENT BENEFITS

Plan Description

The City of Decatur Other Post-Retirement Benefits Plan (the "OPEB Plan") is a single-employer defined benefit post-retirement health care, dental and vision plan, or other post-employment benefit (OPEB) plan. The City Commission has the authority to establish and amend the Plan. The City has not elected to advance fund the plan, but rather maintains the plan on a "pay as you go" basis, in that claims are paid as they arise, rather than establishing an irrevocable trust to accumulate restricted funds. The OPEB Plan does not issue a separate report.

Benefits

Eligible retirees and former employees are offered a different health and prescription drug plan than active employees and the same vision and dental coverage as active employees. The City pays approximately 80% of the total costs of healthcare for eligible employees and retirees.

Eligibility

Eligible participants for Other Postemployment Benefits include:

1. The City allows all retirees to enroll in the OPEB plan upon onset of retirement from the City.
2. Surviving spouses/beneficiaries are allowed enrollment into the plan if the employee had elected coverage for the dependents before onset of electing retirement.
3. Employees retiring under the City's disability retirement benefit are allowed to enroll upon onset of retirement from the City.

Plan Membership

As of July 1, 2015, the most recent actuarial valuation date, the Plan membership included the following categories of participants:

Retirees and beneficiaries receiving benefits	78
Active participants	198
	<u>276</u>

City Contributions

The City contribution is determined by the actuary as necessary to keep the Plan in compliance with the funding requirements of the State of Georgia, however the City has elected to fund the plan on a pay-as-you go basis.

NOTES TO FINANCIAL STATEMENTS

NOTE 10. OTHER POSTEMPLOYMENT BENEFITS (Continued)

City Contributions (Continued)

The annual required contribution for the current year was determined as part of the July 1, 2015, actuarial valuation. The actuarial assumptions included:

Cost Method	Individual Entry Age Normal Level Dollar
Actuarial Asset Valuation Method	Not applicable
Assumed Rate of Return on Investments	3.5% (Including inflation of 2.75%)
Healthcare Cost Trend Rate	5.0% - 9.0% (Includes inflation of 2.75%)
Ultimate Healthcare Cost Trend Rate	5.0%
Year of Ultimate Trend Rate	2025
Amortization Method	Level % of pay
Remaining Amortization Period	30 years (open)

The following is a schedule of funding progress using the entry age actuarial cost method. As of the most recent actuarial valuation date, July 1, 2015, the funded status of the Plan was as follows:

Actuarial Valuation Date	Actuarial Value of Assets (a)	Actuarial Accrued Liability (AAL) Entry Age (b)	Unfunded AAL (UAAL) (b-a)	Funded Ratio (a/b)	Covered Payroll (c)	UAAL as a Percentage of Covered Payroll (b-a/c)
7/1/2015	-	\$ 37,905,582	\$ 37,905,582	0.0%	\$ 10,222,659	370.8%

The required schedule of funding progress immediately following the notes to the financial statements presents multiyear trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liability.

Actuarial valuations involve estimates of the value of reported amounts and assumptions about the probability of events far into the future, and actuarially determined amounts are subject to continual revision as results are compared to past expectations and new estimates are made about the future. Actuarial calculations reflect a long-term perspective. Calculations are based on the substantive plan in effect as of July 1, 2015. The projection of benefits for financial reporting purposes does not explicitly incorporate the potential effects of legal or contractual funding limitations on the pattern of cost sharing between the City and plan members in the future.

NOTES TO FINANCIAL STATEMENTS

NOTE 10. OTHER POSTEMPLOYMENT BENEFITS (Continued)

Annual OPEB Cost

The City's actuarially determined contribution, OPEB cost and increase in net OPEB obligation for the year ended June 30, 2016, is as follows:

Annual required contribution	\$ 2,881,596
Interest on net OPEB obligation	407,820
Adjustments to annual required contribution	(517,863)
Annual OPEB cost	2,771,553
Contributions made	(535,978)
Increase in net OPEB obligation	2,235,575
Net OPEB obligation, beginning of year	13,593,958
Net OPEB obligation, end of year	\$ 15,829,533

The recommended contribution was determined as part of the July 1, 2015 actuarial valuation. The chart below shows the annual OPEB cost for the current year, along with the percentage actually contributed by the City.

Schedule of Employer Costs and Contributions

<u>Fiscal Year Ending</u>	<u>Annual OPEB Cost</u>	<u>Employer Contribution</u>	<u>Percentage of ARC Contributed</u>	<u>Net OPEB Obligation</u>
June 30, 2016	\$ 2,771,553	\$ 535,978	19%	\$ 15,829,533
June 30, 2015	2,405,586	594,129	25%	13,593,958
June 30, 2014	2,587,187	553,192	21%	11,782,501

NOTE 11. DEFINED CONTRIBUTION PENSION PLAN

The City of Decatur's Internal Revenue Code Section 457 Plan (the "Plan") is a deferred compensation plan and qualifies as a defined contribution pension plan. The Plan is administered by ICMA Retirement Corporation and Vantage Trust for all full time employees. Plan provisions and contribution requirements are established and may be amended by the City's Commission. At June 30, 2016, there were 58 plan members.

Employees are not required to contribute to the Plan. Employees may contribute a portion of their gross salary, not to exceed the IRS guidelines, into the Plan. The Plan allows employees to increase, decrease, stop and restart deferrals as often as they wish without penalties or fees. The City's Commission has approved discretionary employer contributions for six employees. Total employer and employee contributions for the year ended June 30, 2016, were \$65,789 and \$134,846, respectively.

NOTES TO FINANCIAL STATEMENTS

NOTE 11. DEFINED CONTRIBUTION PENSION PLAN (Continued)

The Decatur Downtown Development Authority's Internal Revenue Code Section 401(a) Plan (the "Plan") is a deferred compensation plan and qualifies as a defined contribution pension plan. The Plan is administered by ICMA Retirement Corporation and Vantage Trust for all full time employees. Plan provisions and contribution requirements are established and may be amended by the Assistant City Manager. At June 30, 2016, there were 5 plan members.

Employees are not required to contribute to the Plan. Total employer contributions for the year ended June 30, 2016, were \$20,743.

NOTE 12. FUND DEFICITS

For the year ended June 30, 2016, the City's Solid Waste Fund had a deficit net position of \$540,039. This deficit in the fund's net position will be reduced through increased user charges, reduced collection fees and General Fund appropriations, as needed.

NOTE 13. JOINT VENTURE

Under Georgia law, the City, in conjunction with other cities and counties in the Atlanta, Georgia area, is a member of the Atlanta Regional Commission (ARC). Dues to the ARC are assessed at the County level and are, accordingly, paid by DeKalb County. Membership in the ARC is required by the Official Code of Georgia Annotated (OCGA) Section 50-8-34 which provides for the organizational structure of the ARC in Georgia. The ARC Board membership includes the chief elected official of each county and various municipalities of the area. OCGA 50-8-39.1 provides that the member governments are liable for any debts or obligations of the ARC. Separate financial statements may be obtained from ARC, 40 Courtland Street, NE, Atlanta, Georgia 30303.

NOTE 14. RELATED ORGANIZATIONS

The City's mayor is responsible for appointing all board members of the Decatur Housing Authority. However, the City has no further accountability for the authority.

NOTES TO FINANCIAL STATEMENTS

NOTE 15. RISK MANAGEMENT

The City is exposed to various risks of losses related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. In response to these risks, the City has purchased commercial insurance for all property and liability coverage. For insured programs, there have been no significant reductions in insurance coverage. Settlement amounts have not exceeded insurance coverage in the last three years.

Workers' Compensation Insurance

The City is partially self-insured for workers' compensation claims. The City pays annual aggregate claims up to \$1,000,000 over a two-year period. After the claims reach this amount, a private insurance carrier pays the remaining claims. In addition to the biennial aggregate limit, individual limits for City payments are \$300,000 per claim. After the individual limits are met, the private insurance carrier covers the claims. The City has entered into a contract with a third party to administer the program. This activity is recorded in the General Fund.

The following describes the activity related to these claims based on actual claims presented after year-end and historical experience.

<u>Fiscal Year</u>	<u>Beginning of Year Claims Liability</u>	<u>Current Year Claims and Changes in Estimates</u>	<u>Claims Paid</u>	<u>End of Year Claims Liability</u>
2016	\$ 91,468	\$ 80,300	\$ 121,058	\$ 50,710
2015	66,979	50,672	26,183	91,468

Health Insurance

Beginning in fiscal year 2015, the City is now partially self-insured for employee medical claims. The City pays approximately 80% of the premium equivalent rates for each employee. The annual out-of-pocket maximum for employees is \$3,000 per individual; \$6,000 per family for in-network services. Each employee's portion of the medical premium cost is deducted from that employee's paycheck. Employees may opt out of the group health insurance coverage if they certify that they have alternate coverage.

The City is responsible for aggregate claims equivalent to \$9,924 per year per participating employee or roughly \$2,381,600. If the total claims reach this amount, a private insurance carrier will pay the remaining claims. In addition to the aggregate limit, the City's self-insurance is limited to \$75,000 per individual per plan year. After an individual's claims reach this amount, the private insurance carrier will pay any additional medical claims. This activity is recorded in the General Fund and the ending claims payable liability is included in the accrued liabilities reported by the General Fund as June 30, 2016.

NOTES TO FINANCIAL STATEMENTS

NOTE 15. RISK MANAGEMENT (Continued)

Health Insurance (Continued)

The following describes the activity related to these claims based on actual claims presented after year-end and historical experience.

<u>Fiscal Year</u>	<u>Beginning of Year Claims Liability</u>	<u>Current Year Claims and Changes in Estimates</u>	<u>Claims Paid</u>	<u>End of Year Claims Liability</u>
2016	\$ 169,828	\$ 1,879,081	\$ 1,870,099	\$ 178,810
2015	-	1,816,833	1,647,005	169,828

NOTE 16. COMMITMENTS AND CONTINGENCIES

Litigation:

The City is a defendant in certain legal actions in the nature of claims for alleged damages to persons and property and other similar types of actions rising in the course of City operations. There is presently one (1) case pending where it is possible the City will incur a loss to settle the matter; however, a range for the loss cannot be reasonably estimated at this time.

Contractual Commitments:

For the fiscal year ended June 30, 2016, contractual commitments on uncompleted contracts were \$6,557,217.

Grant Contingencies:

The City has received federal and state grants for specific purposes that are subject to review and audit by the grantor agencies. Such audits could lead to the disallowance of certain expenditures previously reimbursed by those agencies. Based upon prior experience, management of the City believes such disallowances, if any, will not be significant.

NOTE 17. HOTEL/MOTEL LODGING TAX

The City imposes a hotel/motel tax on lodging facilities within the City. The tax was assessed at 7%. Revenues were \$611,605 for the year ended June 30, 2016. Of this amount 100% was expended. Expenditures of the tax were used to promote tourism, conventions, and trade shows as well as to operate, maintain, and market a conference center facility as required by O.C.G.A. 48-13-51.

NOTES TO FINANCIAL STATEMENTS

NOTE 18. SUBSEQUENT EVENT

On August 26, 2016, the Urban Redevelopment Agency of the City of Decatur (“URA”) sold the Callaway Building, an asset reported as an investment in real estate in the URA Callaway Building Project Fund. The building was sold to a private developer at a price of \$6,335,310. At the time of the closing, the URA placed \$5,160,192 into a debt service sinking fund to retire the Series 2013C revenue bond when it matures on November 1, 2016.

CITY OF DECATUR, GEORGIA
NONMAJOR GOVERNMENTAL FUNDS

Confiscated Drug Fund – To account for the use of confiscated drug money by the City’s Police Department. These revenues are restricted by State law to be expended on investigations and other police department activity.

Emergency Telephone System Fund – To account for emergency services which are provided to all City taxpayers. Financing is provided through user fees and charges. The charges from the telephone providers are restricted by State law O.C.G.A. 46-5-134.

Grant Fund – To account for grants received and the expenditures related to the grants. These revenues are restricted by the external resource providers from whom the City has received the funds.

Children and Youth Services Fund – To account for charges for the City’s after school program and the expenditures incurred in operating the program. The City Commission has committed all revenues generated by the after school programs to be used for the operation of the program.

Tree Bank Fund – To account for the monies collected from the City’s Tree Bank fees. The City Commission has committed all revenues to be expended for the operation of the program.

Hotel/Motel Tax Fund – To account for the 7% lodging tax levied in the City. The tax revenues are restricted by O.C.G.A. 48-13-51.

2007 GO Bonds Fund – To account for the proceeds of the Series 2007 General Obligation bonds and the expenditure of these funds towards the construction, acquisition and equipping of capital assets.

2010 URA Bonds Fund – To account for the proceeds from the issuance of Recovery Zone Economic Development bonds and the expenditures of those funds for major capital projects.

Cemetery Capital Improvement Fund – To account for the financing and expenditure activity of a capital nature occurring within the cemetery. Financing is provided by one-half of the proceeds from cemetery lot sales. This fund is intended to provide for the capital needs of the cemetery into perpetuity.

Restricted	5,969	5,233	310	1,946
Unrestricted	(98,490)	(22,944)	(18,119)	(12,674)
Total primary government net position	\$ (67,376)	\$ 6,035	\$ 8,445	\$ 9,571

NOTES: (1) The decrease in 2007 is due to the issuance of \$33,245,000 in general obligation bonds, with \$16,500,000 paid to the City Schools of Decatur rather than to capital assets of the City.

(2) In May 2011 the City of Decatur transferred title to all of the capital assets related to the schools to the City Schools of Decatur. This reduced the amount reported as net investment in capital assets and net position overall for governmental activities.

(3) During 2015, capital assets were transferred from governmental to business-type activities.

(4) During 2016, the City issued General Obligation Bonds, Series 2016, the proceeds of which (when combined with the original issuance premium) were passed through to the City Schools of Decatur in the amount of \$75,000,000.

Total primary government	\$ (73,410)	\$ 2,503	\$ (1,126)	\$ (42)

- NOTES:**
- (1) The increase in 2007 is the result of an increase in the debt service millage rate associated with the issuance of the 2007 general obligation bonds, as well as an increase in the assessed value of taxable property due to growth in the City.
 - (2) Interest income increased due to the increase in cash and investments resulting from the general obligation bond proceeds to be used for construction.
 - (3) The special item is the payment of bond proceeds to the City Schools of Decatur.
 - (4) General governmental expenditures no longer include Marta Station improvements; this project was ongoing during the 2006 and 2007 fiscal years, but was completed in the 2007 fiscal year.
 - (5) Interest expenses increased, as the interest payments on the 2007 bonds began during January 2008.
 - (6) City Schools of Decatur contributed nearly \$6 million of construction on City owned assets. The contributions vary year to year due to the projects being undertaken by the City's school system.

(7) 2009 was the first year which the City recorded the Other Postemployment Benefits liability, and a majority of the costs are allocated to the public safety function.

(8) A large portion of the Conference Center assets were fully depreciated in FY 2008 and the debt was paid in full during FY 2009, thus incurring less in interest expense.

(9) In 2009 the City Schools of Decatur used the 2007 bond proceeds to begin large construction projects on City owned assets, which are reported as contributions from the School System.

(10) In May 2011 the City of Decatur transferred title to all of the capital assets related to the schools to the City Schools of Decatur. There was no compensation provided by the School District and therefore the City reports a loss for this activity.

(11) During 2015, capital assets were transferred from governmental to business-type activities.

(12) During 2016, the City issued GO Bonds, Series 2016, the proceeds of which (when combined with the original issuance premium) were used to make a \$75,000,000 payment to the City Schools of Decatur to be used on capital projects for the schools.

- NOTES:**
- (1) The increase in 2007 is the result of fund balance reserved for capital projects to be funded by the 2007 general obligation bonds.
 - (2) The City implemented GASB Statement 54 in fiscal year 2011.
 - (3) The increase from 2012 to 2013 is the result of the issuance of URA Bonds, Series 2013 which will be used to fund capital projects in future periods.

Transfers out	(3,596)	(3,467)	(10,631)	(2,521)
Total other financing sources (uses)	76,300	787	6,508	39,712
Special item	-	-	-	-
Net change in fund balances	\$ 3,862	\$ (4,669)	\$ (23,807)	\$ 25,026
Debt service as a percentage of noncapital expenditures	6.41%	18.38%	16.19%	17.53%

- NOTE:** (1) The increase in 2007 is due to additional property taxes resulting from an increase in the debt service millage rate associated with the issuance of the 2007 general obligation bonds, as well as an increase in the assessed value of taxable property due to growth in the City.
- (2) The City entered into additional capital leases and issued general obligation bonds during fiscal year 2007.
- (3) The special item is the payment of bond proceeds to the City Schools of Decatur.
- (4) General governmental expenditures no longer include Marta Station improvements; this project was ongoing during the 2006 and 2007 fiscal years, but was completed in the 2007 fiscal year.
- (5) The increase is due to the City expending more of the 2007 bond proceeds for capital improvements.

18.00%	15.42%	14.18% (10)	8.32%	8.64%	3.87%

(6) Interest expenses increased, as the interest payments on the 2007 bonds began during January 2008.

(7) In 2009 the downturn in the economy caused the sales of building license and permits to decrease.

(8) In 2008 the City completed large projects which were funded with Department of Education and FEMA grants. These grants were not available in 2009.

(9) The DOE no longer offered funding to the City, due to federal budget cuts.

(10) In 2010 the City issued new notes which increased the debt service expenditures without increasing expenditures as the proceeds were given to the component unit and recorded as a note receivable.

(11) In 2016 the City issued GO Bonds, Series 2016, the proceeds of which (when combined with the original issuance premium) were used to make a \$75,000,000 payment to the City Schools of Decatur for capital projects.

Notes payable	3,692	100.000%	3,692
Certificates of participation	2,965	100.000%	2,965
	164,856		164,856
Total direct and overlapping debt	\$ 524,036		\$ 188,063

Source: Assessed value data used to estimate applicable percentages provided by the DeKalb County Finance Department. Debt outstanding data provided by DeKalb County Finance Department.

Note: Overlapping governments are those that coincide, at least in part, with the geographic boundaries of the City. This schedule estimates the portion of the outstanding debt of those overlapping governments that is borne by the residents and businesses of the City of Decatur, Georgia. This process recognizes that, when considering the government's ability to issue and repay long-term debt, the entire debt burden borne by the residents and businesses should be taken into account. However, this does not imply that every taxpayer is a resident, and therefore responsible for repaying the debt, of each overlapping government.

(1) The percentage of overlapping debt applicable is estimated using taxable assessed property values. Applicable percentages were estimated by determining the portion of the county's taxable assessed value that is within the City's boundaries and dividing it by the county's total taxable assessed value.

N/A - Information not available

(1) During 2008, the City hired four additional PAL employees and implemented new electronic ticketing equipment; during 2010 additional employees were hired to increase monitoring of parking violations.

(2) Fluctuations experienced in traffic violations from year to year result from changing numbers of officers on street patrol during these periods.

(3) Operations have increased over the past few years due to new programs resulting in increased admissions.

** The number of permits issued decreased due to construction at athletic field facilities.
